Summary: (machine translated)
Downclimbing and pool hopping in an attractive environment

Hydrology:

Access: (machine translated)
Coming from Ajaccio we head for Porto. Before the bridge over the Rivière de Porto we stay right on the D84 direction Evisa. After 6.1 km (from the bridge) we turn left onto the D124 in the direction of Ota. 2.1 km further on we cross a bridge and park our car a few meters further on.

Approach: (machine translated)
Contrary to other descriptions, we take the path immediately on the orographic right side of the stream Lonca. This goes up over a ridge away from the stream on the left and meets the path that is described elsewhere as access. Continue on this path until you reach the entry.

Tour: (machine translated)
Downclimbing and jumping in the pools, see photos
You can also get out earlier on the path to the right of the stream, e.g. at the former water drainage.

Return: (machine translated)
Before the bridge right out to the car
