Automatisch importiert von Descente-Canyon.com für Canyon Jabron (aval) Départ du barrage, pas mal de troncs et autres encombrements stationnés juste avant la chute qui demandent qu'à partir à la prochaine crue. L'eau est limpide et on voit bien le fond pour les quelques sauts, tout est passé sans corde.Les mains courantes et la corde à nœuds d'accès aux sauts RG sont bien abîmés.Parcouru jusqu'au pont de sautet, dernière étroiture jolie aussi.Sortie 100m après le pont RD, bricolage par les berges pour rejoindre la voiture et éviter les propriétés privées.Beau petit canyon qui mérite largement sa note!
