Automatisch importiert von Descente-Canyon.com für Canyon Alzen La grande verticale peut se fractionner en 2 parties : un relais intermédiaire chaîné rive droite est positionné à -31m (4m env au dessus de l'ancien vieux relais excentré RD).Il y a un autre vieux relais RD à env de -20m du départ, qui peut prêter à confusion.Le rappel de corde s'est coincé qq m au dessus du relais chaîné, mais on a pu récupérer la corde en s'assurant du bas : bien surveiller la descente de la corde et ravalé rapidement...Pour la dernière partie, des cordes 50m mini sont confortables pour gérer le frottement.Donc 1x68m (première partie) + 2x50m mini, c'est bien pour l'enchaînement de cette verticale. Automatisch importiert von Descente-Canyon.com für Canyon Alzen Canyon court avec un très beau cassé fractionné ! Les amarrages sont en bon état mais des sangles sont à changer. La navette à pieds prend 15 minutes. (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/21230/observations.html>)
