Automatisch importiert von Descente-Canyon.com für Canyon Pussy (1ère partie) On peut éviter le jus dans la plupart des rappels grâce à une bonne trajectoire. Il y avait trop d'eau pour tenter des désescalade, rappel à chaque fois. L'accès au relais suspendu de la 75 est délicat mais réalisable sans danger à condition de prendre son temps. Canyon non terminé à cause d'une chute en bas de la C75, une grosse coupure au niveau du poignet. Si jamais quelqu'un passe par là, les secouristes on laissé un de mes mousquetons au départ de la main courante de la C25, si jamais quelqu'un y passe et me le récupère, c'est cool!Merci! 0782263631 (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2130/observations.html>)

Go in downstream of the bridge. Track need some maintenance. Anchors are not the best, mostly for normal water levels. On our trip the water was a little higher. What was nice. We used a floating anchor in some places.
