País: Schweiz / Switzerland **Región:** Kanton Tessin / Cantone Ticino **Subregione:** Bezirk Leventina **Ciudad:** Chironico		
Dificultad: un poco difícil	**Grado:** v3 a4 III	**Tiempo total:** 2h55
Tiempo acceso: 0min	**Tiempo tour:** 2h30	**Tiempo regreso:** 25min
Altitud de entrada: 775m	**Altitud de salida:** 660m	**Altitude delta:** 115m
Longitud del cañón: 500m	**Rapel más alto:** 30m	**Cantidad rapells:** 7
Transporte: A pie	**Tipo de roca:**	**Zona de entrada:** km²
Temporada: junio - septiembre	**Orientación:**	**Mejor época:** 10-15 Horas
Clasificación: ☆ 3 (6)	**Información:** ★ 2.3 (3)	**Belay:** ★ 2 (4)

Especialidades:

Equipo:
Cuerdas: 2x 30m

Resumen: (traducción alternativa)
Short tour with some nice spots; slides only conditionally possible; small jumps and 2 medium-high rappel; a few short rappel places; partly slippery; at the beginning short walking passages.
Until the middle of the summer high water flow!

Hidrología:

Acceso: (traducción alternativa)
From Biasca --> ri. North --> at the traffic circle continue towards the San Gotthard mountain pass --> straight on from the freeway bridge --> after the road climbs and after a few hairpin bends on the left is the turn-off for Nivo/Chironico --> after the bridge drive through the village --> continue past the church to a no-passing sign --> continue here --> after approx. 900m is another bridge with a turnout --> park here (entry at approx. 770Hm).

Acceso: (traducción alternativa)
From the bridge on the right side of the road on the left side of the Barougia river(s) another 50 m downstream.

Recorrido: (traducción alternativa)
After the water level control at the entry you have a short walking passages to the first downclimb passages (10m left from the tree --> walking --> 6m left from the tree) --> jump of approx. 6m --> after the pool you could get out right --> over a small conifer on the right you overcome the safest the approx. 10m into the pool before the stone bridge (possibly downclimb and slide) --> after the bridge comes the highest downclimb with approx. 30min deep pools (stand on the right, somewhat exposed) --> a tree entanglement follows with a 6m rappel, a R4 on the left and C25 on the right --> after the next small pools comes a short downclimb in a narrower canyon section --> from a bolthook on the left you rappel about 10m into the next pool --> the following places are best rappelled --> at about 660Hm the tour ends in front of a weir (the 40m rappel after the weir was not done during our ascent).

Regreso: (traducción alternativa)
A few meters above the water diversion out to the right and on the path up to the road (do not take the power plant path, which leads a few meters after the start of the path horizontally and wire-secured slightly downhill!).

Coordenadas:
Inicio del Cañón 46.4097 8.8493
Final del Cañón 46.4097 8.8540
Medidor de nivel de agua 46.4097 8.8486

Automatisch importiert von Schlucht.ch für Canyon Barougia, Wasserstand: "Niedrig" Verankerungen: "Okay" Wir haben Usèdi inferiore und anschliessend Barougia gemacht; beide Bäche sehr rutschig, nach unten diesbezüglich immer anstrengender. Ein bisschen Holz auch in dieser Schlucht; die Tour wird gegen unten immer schöner, dann geht es allerdings nach dem Ausstieg wieder mit der nassen Ware hoch. (Quelle: https://schlucht.ch/schluchten-der-schweiz-liste/1107-barougia-inferiore)

It's pretty slippery to walk on, and there's quite a lot of wood in the canyon. But it's still a nice, short canyon. (traducción alternativa)

Better equipped than the upper neighbor. You also have to go through less water here. We moved quite quickly. After 45 minutes, we were at the end.
