Resumen: (traducción alternativa)
Rappel canyon, which can convince especially by its scenic ambience. Most of the time is spent on downclimbing.

Hidrología:

Acceso: (traducción alternativa)
From Dorgali, take the SS125 towards Baunei/Tortoli. 2.3 km after the SP37 junction to Urzulei, we turn left off the SS125 towards Codula di Luna, Teletotes. At the exit of the road, in Teletotes, we park our car.
The Google Earth sketch in the "Photo gallery" shows a possible route.

Acceso: (traducción alternativa)
From the place at the exit of the slope (parking lot in case of possible conversion) we follow the path in a northerly direction. At a fork, we take the left branch, which leads us into the streambed after a few meters.

Recorrido: (traducción alternativa)
In the course of the descent about 12 steps, some of which are rappelled, some bypassed. See http://win.aic-canyoning.it/forum/topic.asp?TOPIC_ID=883

Regreso: (traducción alternativa)
Just before the Bacu su Palu flows into the Riu Codula di Luna, we come across a hiking trail that crosses the streambed. Following this to the right, we come directly to the car in Teletotes.

Streambed hike to pools with disgustingly rotten water. We didn't find a single anchor point. Interesting and pleasant canyon maybe if you have monsoon like rain to have some water in the canyon. No recommendation (traducción alternativa)

Scenic hiking canyon with a few possible jumps. Top stands (mostly 2 single pitons), lots of climbing. 1 hour return on foot (faster than moving the car...). (traducción alternativa)
