País: Portugal **Región:** Região Autónoma dos Açores / Azores **Subregione:** **Ciudad:** Fazenda (de Santa Cruz)		
Dificultad: no tan difícil	**Grado:** v3 a3 III	**Tiempo total:** 2h
Tiempo acceso: 10min	**Tiempo tour:** 1h30	**Tiempo regreso:** 20min
Altitud de entrada: 75m	**Altitud de salida:** 10m	**Altitude delta:** 65m
Longitud del cañón: 1000m	**Rapel más alto:** 22m	**Cantidad rapells:** 5
Transporte: Coche opcional	**Tipo de roca:** basalt	**Zona de entrada:** km²
Temporada:	**Orientación:** Este	**Mejor época:**
Clasificación: ☆ 2.7 (5)	**Información:** ★ 2.3 (3)	**Belay:** ★ 2.7 (3)

Especialidades:
Presa,

Equipo:
Cuerdas: 2x30m

Resumen: (traducción alternativa)
Short canyon in basalt rock, nice ambience, but very slippery underground.

Hidrología:

Acceso: (traducción alternativa)
From Santa Cruz we take the road ER 1-2 in the direction of Ponta Delgada (northern direction, near the coast). Calculated from the northern exit of the runway of the airport of Santa Cruz we reach after about 2.7 km the center of Fazenda (de Santa Cruz). We drive through the village with the dominating church and after about 350m we come to the road bridge over "our" creek. We park our car about 250m further on, where the road to the E-Werk turns off to the right. If we have a second car available, we drive down to the E-Werk and park it there.

Acceso: (traducción alternativa)
From the car, head back to the bridge and then down to the stream immediately south of the bridge. Alternatively, rappel down from the bridge.

Recorrido: (traducción alternativa)
Walking, downclimbing, involuntary slides and 3 rappels (8m - 12m - 22m) await us. The 1st rappel goes into a pool that siphons. If the water flow is greater, be aware of the danger this poses (when rappelling, you can go out to the left without having to rappel all the way into the pool). At the E-Werk you can exit directly or continue to the last step that descends into the sea.

Regreso: (traducción alternativa)
From the E-Werk up the road to ER 1-2, unless you have parked a second car at the E-Werk.

Coordenadas:
Inicio del Cañón 39.4679 -31.1497
Final del Cañón 39.4698 -31.1419
Aparcamiento a la salida 39.4697 -31.1425
Aparcamiento a la entrada 39.4692 -31.1473

Automatisch importiert von Descente-Canyon.com für Canyon Fazenda Un petit canyon pour une descente rapide, qui débouche sur la mer. Nous avons effectué la descente en rappel depuis le pont, car aucun sentier d'accès n'était visible à proximité ; il y a donc au total six rappels à franchir, dont le plus long atteint 22 mètres. Dommage que la grande cascade soit équipée de manière à ce que le rappel s'effectue à sec. Peu après la centrale hydroélectrique, le canyon rejoint la mer ; un sentier à peine discernable permet de descendre jusqu'à l'eau. One anchor is damaged. We rappelled down from the bridge and, including the bridge itself, had six rappelling points on the way down to the power plant; the highest was about 22 meters. From the power plant, it’s worth taking the short trail down to the Atlantic Ocean. Video linked below on the left. (traducción alternativa)

Very very VERY slippery canyon. I think this was the most slippery canyon I've ever been in. It was so slippery that I thought of bringing my crampons next time. For the rest nice, short canyon, no problem anywhere. Taking a dip in the ocean was a nice ending. Did I mention it was slippery already?
