Resumen: (traducción alternativa)

Rough ditch with some not unattractive rappel. Relatively open, no jumps and slides.

Hidrología:

Acceso: (traducción alternativa)

From Reutte in Lechtal we drive to Plansee and there to the hamlet "Am Plansee" (9.8 km from Fernpassestraße B 179, exit Reutte Süd). From here we follow the road northwards for another 2.5 km - along the Torsäulenbach stream - in the direction of Linderhof Castle. Here the bridge crosses the Teufelstalbach (sign on the bridge railing). 25 m further on, we can take a path to the right and park our car here for the exit.

Access is also possible from the direction of Oberammergau/Ettal. To do this, we leave the B23, which connects the two towns, in a westerly direction onto the St2060 towards Linderhof Castle. We drive past Linderhof, pass the German-Austrian border and 2.1 km after passing the BMW conference center (formerly Hotel Ammerwald) we come to the bridge over the stream from the Teufelstal.

We take a second car in the direction of Plansee. After 1.6 km, a forest road turns off to the right (west). Here we park our second car at the edge of the tarred road (1000m above sea level).

Acceso: (traducción alternativa)

We follow the unpaved forest road for about 2.5 km or a good 40 minutes. Then we turn right at a junction uphill and after another 10 min. or 550 m we come to the Bertlshütte (1240m above sea level). The track bends to the right 55m further on and after another 60m we turn left from the main track at an acute angle. 200m further on the trail crosses the chalk stream. A few meters before that, an unpredictable, because little used, path goes up to the right. In serpentine it first goes up the slope, later the path then goes up in an easterly direction to a large open area south of the Altenberg hut (1490m a.s.l.). Across the meadow in the saddle further downhill in a northeasterly direction we come across a channel fed by a spring and follow it down to the Guggerbach stream. We meet it where it makes a 90 degree bend to the east coming down from the Gugger (Altenberg). Here we enter the path.

Recorrido: (traducción alternativa)

At first, for a considerable time in the open streambed without any significant gradient. Then begins a gradient that increases with increasing duration. About 20 rappel, many of them with redirectors (Sauschwanzl). The belay is very good and relatively new (anno 2016).

Regreso: (traducción alternativa)

At the confluence of the Guggerbach and the Torsäulenbach we cross the latter, come to the tarred road and follow it downstream for about 100m to the car for the exit.
