Clasificación: ☆ 2.1 (2)	**Información:** ★ 0 ()	**Belay:** ★ 2 (1)

Especialidades:

Equipo:
Cuerdas: 1x30m

Resumen: (traducción alternativa)
Not as much fun potential as its neighbor Richiusa, therefore relatively little frequented. At least some slides and possible jumps and a nice narrow passage.

Hidrología:

Acceso: (traducción alternativa)
We head for the village of Bocognano on the N193 (Ajaccio - Corte). Either about 40km from Ajaccio or about 41km from Corte over the Col de Vizzavona (1183m above sea level). At the eastern exit of the town, we follow the sign "Richiusa" and take the small road downhill in a northerly direction. After 950m we turn left downhill a few meters before reaching the hamlet of Busso and after another 700m we arrive at a small electric plant on the bank of the Gravona. Here we park the car.

Acceso: (traducción alternativa)
We cross the Gravona to the northern bank and, keeping to the right, follow the path in a northerly direction. After about 250m, at the fork, take the path leading down to the right, cross the Cardiccia/Richiusa and ascend the slope on the other bank for about 25 minutes. The path branches off again on a ledge about 800m above sea level. To the left (N) would be Bergerie Matone and thus Canyon Richiusa; we take a partly indistinct path to the right. This path climbs gently and evenly. Where clear tracks lead up to the left, we stay in the direction we have taken so far on barely recognizable tracks (possibly cairns). The tracks gradually become clearer again and after about 500m (approx. 25 minutes) we then descend to the right into the stream at a suitable point in front of a rocky ledge.

Recorrido: (traducción alternativa)
Downclimb in the open streambed, some slides, then the attractive constriction with rappel.

Regreso: (traducción alternativa)
After the exit of the narrow section, walk for about 10 minutes in the streambed to Gravona, then in and along the edge of Gravona for another 30 minutes to the parking lot on the left. Do not go up the opposite slope! Where a game/pasture fence on the left bank reaches almost as far as the river bed, we can get out on the left and come directly onto a forest path that always runs parallel to the river at a constant height to the tarred road. Follow this for a few meters up to the parking lot.

Automatisch importiert von Descente-Canyon.com für Canyon Leccia Rossa Sentier d’approche peu entretenue mais visible , mérite un nettoyage (n’hésitez pas à prendre un sécateur , machette , etc).Si gros débit je pense qu’il faudrai rajouter au moins deux points sur deux cascades qui ne sont pas équipés .Canyon sympathique , à découvrir (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/2975/observations.html)

Access track very unclear in places. Descend to the stream across the wood. In Gravona, after about 20 minutes, turn left at the pasture fence onto a forest path and follow this until you reach the road. It is advisable to carry secateurs. (traducción alternativa)

Automatisch importiert von Descente-Canyon.com für Canyon Leccia Rossa Gros débit +. Le canyon n'est pas équipé pour un tel niveau d'eau. Il faut être très à l'aise dans l'eau vive et ne pas avoir peur de passer la tête sous l'eau... De nombreux toboggans ont des mouvements d'eau importants ou des siphons. Le retour dans le ruisseau est très long par cette quantité d'eau. À noter que nous avons laissé deux sangles en place sur des arbres pour éviter un rappel trop arrosé et impraticable ainsi qu'un toboggan avec un gros siphons. Le canyon doit vraiment être splendide en début correct ! Néanmoins un débit important est à éviter dans ce canyon.Marche d'approche facile à trouver même dans le maquis Corse !
