Little throughput, 3 m slide shortly after entry and then a 7 m drop into shallow water. No anchors far and wide, necessary protection available, looks different to us, therefore aborted, too bad. On the access fresh hemp break, path, still going well but 20 m scary and unpredictable how much longer (traducción alternativa)

A gem that you should visit if you are in the area! As with Babos Canyon, we took an off-road vehicle to the marked parking lot at the church and walked back to the paved road. (traducción alternativa)
