Resumen: (traducción alternativa)
Very vertical! 200 m drop over several steps.

Hidrología:

Acceso: (traducción alternativa)
From Locarno, drive into the beautiful Maggia Valley --> follow the state highway through several small villages (watch out for speed cameras!) until you reach the village of Someo. In the village of Riveo, take the first major road, "la Geira," and turn left.

Acceso: (traducción alternativa)
From the parking lot, follow the path to the left through the Maggia. Keep to the slope, then follow the signpost to the Alzasca hut and follow the path to the bridge. This is the entry point, climb up to the water intake and check the water level. Do not enter if the water is already overflowing or the drain is blocked.

Recorrido: (traducción alternativa)
An approx. 200 m high wall with several small steps, mostly without water due to water catchment

Regreso: (traducción alternativa)
Exit the stream on the left and follow the path through the stream back to the car.

Automatisch importiert von Schlucht.ch für Canyon Valle del Soladino, Wasserstand: "Niedrig, Mittel" Verankerungen: "Alle OK" Val Soladino Superiore Etwas Rutschig. Mit dem Wasserstand ist es sehr angenehm zugehen. Val Soladino inferiore Es ist fast trocken. Die Stände sind ok. Beim letzten C30 fehlt ein plättli. Eine sehr lohnende Schlucht Top! An impressive canyon with a great view of the Maggia Valley from a height of 200 meters. All the anchors are in good condition. Only the fixed rope for pulling yourself up at R35 could use replacing. Caution: The belay station with the chain at R50 is relatively far to the right, right at the tip of the overhang. If you miss it, you'll have a hard time pulling the ropes back up, and you'll need edge protection. The canyon at C30 is very slippery due to low water levels. (traducción alternativa)

Nice, even though it's almost completely dry. Pools of still water, but not stagnant. The moorings are in good condition. (traducción alternativa)
