Resumen: (traducción alternativa)
Short fun canyon in nice red porphyry rocks.

Hidrología:

Acceso: (traducción alternativa)
From Cittiglio (see under Cascade di Cittiglio; Torrente S. Giulio) on the SP 8 for about 2 km in the direction of Varese, then turn left onto the SP45. Go up to Azzio and continue to Castello Cabiaglio (11 km from Cittiglio). Go through the village and continue towards Brinzio. After a few hundred meters the road dips into the woods in a wide curve to the left. Here, on the righthand side, there is a wayside shrine with a spring ("Parco del Campi dei Fiori").

Acceso: (traducción alternativa)
Immediately into the rutted streambed and downhill to the gorge.

Recorrido: (traducción alternativa)
Short canyon with several slides and possible jumps, usually combined with the Cittiglio cascades.

Toboggan (C03) possible and also last two pools (C04 and C05) jump possible. All the anchor points in order, water flow low but refreshing. Return path with one section full of fallen trees.

Easily doable due to the receding water. The lovingly laid out access and return path is unfortunately falling into disrepair and is beginning to overgrow. (traducción alternativa)

First rappel tobogable, but care must be taken as currently the puddle is shallow, about up to the chest. Third rappel toboga also very nice, done without problems. The last 2 pools have finally cleared completely and are perfectly free and plungeable. Short but fun and refreshing creek (traducción alternativa)

First shallow pool, toboga not recommended. Second toboga ok. Second to last puddle is getting deep again, it is plungeable but with care. Last puddle dive ok. A few fallen trees on the return path, but it passes well. (traducción alternativa)
