<b>Resumen:</b> (traducción alternativa) Small rappel canyon in shale; can be climbed in 3 parts.		
<b>Hidrología:</b>		
<b>Acceso:</b> (traducción alternativa) From Chur we drive via Trins-Mulins to Flims. At the beginning of the village we take the road on the right up towards Fidaz and Bargis. After passing Fidaz, we come to a large parking lot where we park our car (1245 m altitude) and continue up to Bargis either by bus, by bike or on foot (about 1 hour).		
<b>Acceso:</b> (traducción alternativa) Once in Bargis (1550m altitude), we follow the road over the Turnigla bridge and then take the dirt road up to the right. At an altitude of 1870m, the trail crosses to the western side of the stream (entry to the lower parts) and climbs up to an altitude of 2000m. Here the path leads back to the eastern side of the stream (entry to the middle part) to an alpine pasture. For entry to the upper part, continue uphill on the orographic left slope of the Turnigla. At an altitude of 2130m at the latest (possibly even further down) we then enter the upper part.		
<b>Recorrido:</b> (traducción alternativa) Small rappels and downclimbs in a canyon that is not very deep. In the third part, the stream then notches deeper and we come across parts where the canyon is briefly "capped". Where the gorge exits, we climb out to the right above a path.		
<b>Regreso:</b> (traducción alternativa) We follow the tracks downhill and quickly reach Bargis.

Entry at approx. 2120 m. From the alp at 2002 m there was biofilm on the rock and it became slippery. Some of the anchors are old and had to be tightened in some places, but are basically in good condition. Many passages have to be downclimbed freely with low jumps into pools whose depth and substrate cannot always be estimated - be careful. A pretty and very long canyon. (traducción alternativa)

Automatisch importiert von Descente-Canyon.com für Canyon Lavandignas Magnifique canyon. Fait que la partie 1 et 2. Du coup beaucoup de marche pour peu de canyon. Mais ça en valait la peine. Soleil à 11h. Quelques points à remplacer et certains à poser pour que ce soit plus confortable... (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/22683/observations.html>)

Very nice water level at the moment. Unfortunately none of the pools are deep. (traducción alternativa)

Quite aquatic. Climbed to the exit before the end. All anchors in order. Mostly single bolts, sometimes double bolts towards the bottom. The first part is very impressive, the bottom also looks great. (traducción alternativa)

Automatisch importiert von Schlucht.ch für Canyon Lavadignas, Wasserstand: "Sehr niedrig" Verankerungen: "Oben sehr verrostete Maillons, Mitte super, unten schlecht" Schöne Tour mit ein paar Laufeinlagen, im unteren Teil muss man ein paar natürliche Verankerungen nutzen. Einige Veränderungen seit dem letzten Mal. (Quelle: <https://schlucht.ch/schluchten-der-schweiz-liste/1199-lavadignas>)

2024-09-07 | Bina | ★★☆☆ | 📖 | 📍 ★ | 🌊 Bajo | 🍏 Completado

Lower part needs some anchors, because otherwise it is rather tedious. The upper part has some rusty maillons. (traducción alternativa)

Pure rappel and downclimb canyon. Beautiful parts, but not exciting compared to other tours (traducción alternativa)
