Resumen: (traducción alternativa) Short canyon in beautifully polished rock. Should be done in spring when there is still water flow.		
Hidrología:		
Acceso: (traducción alternativa) We head for the town of Corleone, which is 35 km - as the crow flies - south of Palermo. At the exit of the 20th century, Corleone was considered a mafia stronghold in Sicily. From Corleone, we head north on the SS 118 towards Palermo. 5.2 km after leaving the center of Corleone, the SS 118 crosses a small river in a wide left-hand bend. 3.4 km further on, we turn left off the SS 118 and immediately turn left again onto a dirt road (former railroad line - cars are no longer allowed on this section in 2017), which leads us to the bridge over the river after 650 meters.		
Acceso: (traducción alternativa) At the bridge we enter from the right bank.		
Recorrido: (traducción alternativa) After the last rappel of 20 m, an exit to the right is marked.		
Regreso: (traducción alternativa) We leave the canyon to the right and head west along a dirt road that takes us back to the bridge and the car.

Nice water level, the last three abseiling points are in a very desolate condition and should definitely be renewed.
