Especialidades: § Plaza de aparcamiento de pago, Sólo caminar después de la lluvia,		
Equipo: Cuerdas: 2x90m herramienta de perforación,		
Resumen: (traducción alternativa) A waterfall approx. 80 m (35 / 45)		
Hidrología: (traducción alternativa) Light stream that probably only carries water directly after rainfall.		
Acceso: (traducción alternativa) By car to the paid parking lot at the exit of the Kiental (at the exit of the Griesschlucht)		
Acceso: (traducción alternativa) From the Tschingelsee, follow the Bärenpfad in the direction of Griesalp / Golderli. The well-maintained hiking trail first leads steeply uphill and then crosses a small bridge over a stream. Continue on the path until you see a conspicuous building on the meadow on the right (downhill). Walk across the meadow to the edge of the forest, where you meet the small stream just before the slope. Continue to follow the stream.		
Recorrido: (traducción alternativa) For the last few meters to the edge, hang a rope from a tree and use it to descend secured to the last suitable tree. Use another tree as a natural anchor and rappel from there for about 80 meters. An intermediate stand can be set up after approx. 35 meters (in the water!) - but it is unlikely to find suitable anchors here.		
Regreso: (traducción alternativa) 230 meters across the meadows to the parking lot

It's clear that it will never become a classic, but it's one more thing you can do to pass the time when it's raining. (traducción alternativa)

Good alternative if there is too much water everywhere else. 1 waterfall, rappel from the forest. See <https://www.christian-balla.de/~130> ATTENTION: We have drilled the intermediate stand in the middle of the waterfall. This is probably impossible to find or very quickly in a critical condition. Be sure to take material for the intermediate belay or sufficiently long ropes! (traducción alternativa)
