Resumen: (traducción alternativa)
Often dry gorges. However, a few stubborn pools can still make neoprene necessary.

Hidrología:

Acceso: (traducción alternativa)
Coming from Florence on the A1, passing Arezzo and Orvieto, leave it 41 km after Orvieto at the Orte exit and continue on the SS 204 in a northeasterly direction to Terni. You still have to cross the city to get onto the SS 209 ('Valnerina') which goes up the valley of the Nera towards Visso. After 33.5 km from the center of Terni, you reach the crossroads where the new road branches off in the direction of Spoleto/Foligno. However, continue along the SS 209 in the valley of the Nera and after 6 km you will reach 'L'Eremita', a church with a house and a cemetery on the left of the road. Park the car here.

Acceso: (traducción alternativa)
From the parking lot, take the path above the cemetery towards the canyon exit, then turn left (southwest) across the stream. Follow the path on the orographic right bank, which after about 200 m turns left up the slope. The path climbs steeply up to a rocky saddle and from there descends to the right down to the stream.

Recorrido: (traducción alternativa)
Short narrow section, dark gorge. 4 well equipped abseiling points.

Regreso: (traducción alternativa)
Where the canyon opens, left on a path that leads to the Hermitage.

Automatisch importiert von Descente-Canyon.com für Canyon Rocca Gelli At the end it seems dry, but it was still flowing slightly with clear (knee deep) pools. Continuous, but nothing really special. 7 or 8 obstacles. Good for an initiation or training. Well equiped. (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/21733/observations.html)
