País: Schweiz / Switzerland **Región:** Kanton Tessin / Cantone Ticino **Subregione:** Bezirk Riviera **Ciudad:** Lodrino		
Dificultad: difícil	**Grado:** v5 a5 IV	**Tiempo total:** 3h50
Tiempo acceso: 15min	**Tiempo tour:** 3h30	**Tiempo regreso:** 5min
Altitud de entrada: 490m	**Altitud de salida:** 280m	**Altitude delta:** 210m
Longitud del cañón: 900m	**Rapel más alto:** 45m	**Cantidad rapells:** 16
Transporte: Coche opcional	**Tipo de roca:** granite	**Zona de entrada:** 17.00km²
Temporada: julio - septiembre	**Orientación:** Noreste	**Mejor época:** 10-14 Horas
Clasificación: ☆ 4.9 (65)	**Información:** ★ 2.8 (48)	**Belay:** ★ 2.7 (62)

Especialidades:

Equipo:
Cuerdas: 2x 50m

Resumen: (traducción alternativa)
A rappel canyon in stunning granite rock with optional jumps. A beautiful, deeply carved aquatic canyon with turbulent pools and crystal-clear water.
When near the village, please limit whistling to only what is absolutely necessary (the residents will appreciate it).

Hidrología: (traducción alternativa)
Can only be walked on without risk after prolonged dry spells

Indicative measuring point, no direct measured value:
Little: <150l/sec; Medium: 150-400l/sec; Much: 400-1000l/sec>; Too much: 1000l/sec

Acceso: (traducción alternativa)
From the freeway junction (Gotthard/Bernardino) north of Bellinzona on the N 2 northwards. Shortly after passing through Cresciano, turn left and drive to the other side of the valley to Lodrino (approx. 12 km from the interchange). Enter the village (on the right) and after the bridge over the stream take the 3rd street on the left. Park your first car behind the cemetery (not at the storage hall) (do not use the parking spaces in front of the supermarket and under the trees in the center of the village). With the second car, drive north towards Iragna and after almost 2 km (from Lodrino), immediately after the houses of Rodaglio, at a commercial establishment (GPS coordinates: 46°19'02.46 "N / 8°58'19.70 "E), just after an inconspicuous chapel, turn left onto a small road that takes us up to the houses of Legri (a fork to the right). - The road continues straight ahead until it ends in an open area (helipad) (or continues as a dirt road to the west). Park the second car here.

The road to the upper parking lot is a private road with toll.

Acceso: (traducción alternativa)
From the upper parking lot, descend on the mentioned slope and where it makes a left turn, turn right onto a path that takes you down to the stream in 15 minutes (entry). If you only have 1 car, walk towards the church and behind the church the hiking trail begins, which meets the access road. Follow this road to the left, at the turning point (helipad) turn right downhill. Straight ahead along the path to the stream. Access then a total of 45-60 min.

Recorrido: (traducción alternativa)
The Lodrino is accessible without risk only after prolonged drought. If you look up into the narrows at the exit of the canyon (easily accessible from the orographic left side), you get at least an approximate impression of the situation. After some smaller slides and jumps, you are in front of the first real rappel point, a winding 15m channel. If the water level allows it, rappel 15m from the left, or cross to the right to the other exit of the pool and jump down 10m from there. After a few nice bends, you are in front of an almost vertical 11m slide. Dangerous rock bay on the left, keep right when surfacing. Can also be rappelled left. This is followed by an 8m rappel from anchors on the left and two narrow, winding rock canyons before the canyon widens considerably (pathless escape on the left). The second part of the gorge begins with a 7m slide and a 7m jump into a deep pool. This is followed by a very photogenic 9m rappel (Can also be jumped). The next, wild-looking 5m rappel either rappel in the water or bypass right on traverese rope. At the big rappel from two anchors on the right, rappel 5m (install rope traverse) to reach the actual belaystation on the left under the edge. Here it goes down 45m into a large pool. Here you can escape to the right. Pass the dam on the right and downclimb through the chaos of blocks. The last waterfall either rappel 37m from the right in the water jet, or traverse to the left over fixed ropes to a dry belaystation. Finally, rappel another 22m from the belaystation at the top right. Exit possible on a paved path after the 45m rappel. The chute at the beginning of the penultimate (37m) rappel can be avoided by rappelling out of the wire entanglement on the left above; but the turbulence down in the big pool cannot be avoided. Can be well connected with Lodrino med.

Regreso: (traducción alternativa)
After leaving the bottleneck left over the stone wall and gravel road back to the parking lot.

Coordenadas:
Inicio del Cañón 46.2963 8.9710
Aparcamiento a la salida 46.3025 8.9784
Aparcamiento a la entrada 46.2978 8.9733
Final del Cañón 46.3008 8.9770
Medidor de nivel de agua 46.3008 8.9772

Bad weather in the north. Sunshine in the south. Climbed the Intermedio and Inferiore routes. All alone in the canyon. Clear water. Slippery. Beautiful. More than enough anchors. (traducción alternativa)
