Resumen: (traducción alternativa) Rappel canyon in glacier water		
Hidrología:		
Acceso: (traducción alternativa) From Sondrio head north towards Chiesa in Valmalenco. Pass this village, which lies on the other side of the river, and immediately after crossing the stream coming from the east, turn right towards Lanzada, Tornadri. After these villages, continue on a steep ascent with many hairpin bends. After passing through several tunnels, we reach a large parking lot with a restaurant. Turn left here, cross the Cormor to Franscia and park near the bridge over the Lanterna (30 km from Sondrio).		
Acceso: (traducción alternativa) Follow the path on the east side of the Lanterna upwards, later following the yellow markings (especially arrows) under the rock faces near the stream. The entry is to the right (north) of the side stream; if the entry is too exposed and slippery, you can rappel 15 m from the tree into the bottom of the gorge.		
Recorrido: (traducción alternativa) Generally a good flow of cold, gray glacier water. The belays are inadequate when there is a lot of water flow and abseiling can then no longer take place outside the "stream". There is an emergency exit to the left about halfway down, see video.		
Regreso: (traducción alternativa) Before reaching the water intake at the power station, turn right.		
Coordenadas: Inicio del Cañón 46.2976 9.9103 Aparcamiento Entrada y Salida 46.2927 9.9129 Final del Cañón 46.2947 9.9104

Also attractive as a winter canyon. Much less water, but crystal clear. Lots of ice, not all stands found. Many (too many) steel cables in the lower part. Access / return via ski area (Dosso dei Vetti) as road closed via old but easily recognizable paths. (traducción alternativa)

The road up from Lanzada to Campo Franscia suffered damage from a landslide that came down on Tuesday, November 11, 2025. Work on Campo Franscia could take until spring 2026.
