País: Schweiz / Switzerland **Región:** Kanton Tessin / Cantone Ticino **Subregione:** Bezirk Blenio **Ciudad:** Malvaglia		
Dificultad: un poco difícil	**Grado:** v4 a4 III	**Tiempo total:** 2h55
Tiempo acceso: 30min	**Tiempo tour:** 2h15	**Tiempo regreso:** 10min
Altitud de entrada: 1135m	**Altitud de salida:** 990m	**Altitude delta:** 145m
Longitud del cañón: 450m	**Rapel más alto:** 25m	**Cantidad rapells:** 6
Transporte: A pie	**Tipo de roca:**	**Zona de entrada:** km²
Temporada: julio - septiembre	**Orientación:** Norte	**Mejor época:** 10-15 Horas
Clasificación: ☆ 4.1 (20)	**Información:** ★ 2.4 (11)	**Belay:** ★ 2.5 (17)

Especialidades:

Equipo:
Cuerdas: 2x30m

Resumen: (traducción alternativa)
Very aquatic; clean cold mountain water; only single pitons; beautiful partly slippery granite rock; emergency exit at the beginning and at the end; super high speed slide (20 m; be careful!); rather short canyons little used.

Hidrología:

Acceso: (traducción alternativa)
From Biasca ri Malvaglia/ Motto (Val di Blenio) --> at the 2nd entrance right into the village Malvaglia Chiesa --> in the village ri. North (several sleepers approx. 700m) to a fork (Pontirone) --> the steep mountain road over several Zerpen- tinenkurven up to a road fork (stone arch) --> here you follow the road course left, past the barrier and further up to the huge dam wall --> at the upper edge is a parking lot (approx. 990Hm).

Acceso: (traducción alternativa)
From the parking lot over the dam through the tunnel --> after the tunnel immediately 360° left up the trail --> over a bridge and past the house --> the entry is at the 2nd bridge (over the stream) at about 1135Hm.

Recorrido: (traducción alternativa)
Immediately after the bridge you have the first rappel C20 (water level control) --> this place can also be bypassed right --> a cascade follows the right of the tree first R15 rappel and 4 m can be slid --> should be here already too much water, you can break off at the beginning --> now follow some jumps and slides which are to be enjoyed with caution --> the pools are crystal clear but you can't always see the depth because of the white water --> the canyon is a lot of fun especially for those who like jumping and sliding in an aquatic environment --> the highlight in the canyon is the 20m slide with flying descent (see topographic view --> after the big slide (resp. rappel) it goes mostly only descending with small jump and rappel places --> one has shortly after the slide the possibility to exit left or to go to the reservoir at the big funnel and exit left at the railing (ca.990Hm).

Regreso: (traducción alternativa)
From the trail back through the tunnel over the dam wall in a short time back to the parking lot.

Coordenadas:
Inicio del Cañón 46.4184 9.0266
Final del Cañón 46.4207 9.0236
Aparcamiento Entrada y Salida 46.4242 9.0184
Medidor de nivel de agua 46.4180 9.0269

Nivel óptimo de caudal. Anclajes en buen estado. Barranco alpino corto y muy estético. Pensábamos que escurría más pero agarra bastante más que boggera siendo mucho más abierto. Al llegar al tobogán de 20 metros una persona de un grupo de cuatro que iban por delante ha tenido rotura de tobillo y hemos tenido que evacuarlo. Ha tenido suerte ya que éramos un grupo de 20 y lo hemos sacado por el escape que hay antes del caos de piedras. Esperamos que se recupere y no sea mucho

The ride was too short—the drive there and back took almost as long. Definitely one of the wildest slides I know; it's hard to keep your body tense with that kicker at the exit. My neck and shoulders were sore for at least a week. (traducción alternativa)

Automatisch importiert von Descente-Canyon.com für Canyon Combra Belle découverte que ceVal Combra ou la fraîcheur de l’eau contrastait avec la température caniculaire même si la descente se fait essentiellement sous couvert forestier…Équipement minimaliste mais qui fait le job…Le canyon est quelques peu glissant, on a pu envoyer quelques sauts dans des casques émeraudes après vérification d’usage…Approche en 25/30’ sans forcer sur une large piste assez raide…Pour le retour une fois arrivés en bout de lac vous trouverez une corde rouge en fixe sur la barrière à gauche du déversoir… (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/2658/observations.html)

The water level is perfect, though it has a bit of depth for the Combra. Still, it’s pretty cool. All the anchors are in good shape. All the jumps and slides are doable. It’s relatively slippery in the stream bed. (traducción alternativa)
