Resumen: (traducción alternativa)
Rappel canyon with many smaller steps, nicely continuous and without getting too technical.

Hidrología: (traducción alternativa)
Lots of vegetation in the catchment area, you should wait a few days after heavy rain. Should not be entered if the measuring station at Brenno still has over 5 cubic meters.

Acceso: (traducción alternativa)
There is not much space to park directly at the top, so perhaps it is best to stop at the bends before the turn-off.

Acceso: (traducción alternativa)
At the bridge at 1009m you can walk down into the streambed, and in a little more than 100m the canyon begins.

Recorrido: (traducción alternativa)
The canyon actually has the same ambience throughout. Small steps rappeling in the water, in a constant 10-30m gulch. An emergency exit is often possible every 5 rappels (even if it is often steep up the slope). There are three larger waterfalls during the tour, with the very large one being the crux of the tour.

Regreso: (traducción alternativa)
You can park right by the bridge at 618m and walk well out of the streambed. The last 2 steps under the bridge are nothing special and after that you end up in nowhere.

A bolt is missing. You can rappel down a tree at this point. Please bring a drill for the next climb. (traducción alternativa)

Automatisch importiert von Descente-Canyon.com für Canyon Uregn Quelques ancrages sont rouillés et un manque (1 rappel après la C35). Mais rappel possible sur arbre rive droite. Super canyon, glissant mais continu! Topo dispo sur Opencanyon (app) (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/23565/observations.html)

A few rusty anchors and one missing (you can abseil down the right bank using the trees). The canyon is slippery but really great! It’s continuous and has some nice sections. (traducción alternativa)

Automatisch importiert von Descente-Canyon.com für Canyon Uregn Beautiful canyon, some hooks are questionable and rusty. Fun to do with high flow (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/23565/observations.html)

There was one anchor missing. You can rappel dry troug the bushes on the right. It was beautiful with the flow we had.

Anchors ok, quite slippery and some wood in some puddles, still beautiful. (traducción alternativa)

Many small rappels, and a few over 10m, but actually never boring (challenging at the water level anyway, but not for everyone) (traducción alternativa)
