Resumen: (traducción alternativa)
Relatively open rappel canyon that starts below Monte Moregallo (1276m a.s.l.) and descends to Lago di Como.

Hidrología:

Acceso: (traducción alternativa)
From Lecco - western bank of the Adda, exit Pescate of the SS 36 - we drive first on the Via Alzaia, later on the SS 583 in northern direction along the Lago di Como. After 8.9 km, after one of the numerous tunnel passages, we come to the Motel "Nautilus", located on the right between the road and the lake.\nHere we find space to park the car for the exit.\nWith the second car we continue for 4.3 km, then in the village of Onno we turn left onto the SP 46 in the direction of Valbrona, Asso. From here we go uphill for 4.7 km and then, at the beginning of Valbrona, we turn left at a sharp angle into Via Ziniga. 1.4 km further on we come to a metal barrier, which is usually open. Here we park the second car (620 m above sea level).

Acceso: (traducción alternativa)
We take the track to the left of the tarred road in a southeasterly direction. The track continues on a footpath. After about half an hour the path crosses into the steep slopes above Vallone Moregallo and after another quarter of an hour we are at the streambed.

Recorrido: (traducción alternativa)
Sequence of a total of 23 rappels, first in largely open terrain, after the water drainage the last four in narrower canyon. Exit directly to the lake.

Regreso: (traducción alternativa)
If you are afraid to go around to the right through the hotel complex to the car, you will also find a passage up to the left to the car parked below.

Automatisch importiert von Descente-Canyon.com für Canyon Moregge My last canyon for this season. Done integral, flow correct (it's been raining a little), water cold but not too much, slippery but not too bad. All anchors ok. The numbered rappels (10) are only in the lower part, the upper part needs to be finished. (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/22158/observations.html)

Integral canyon, my last one for this season, the weather is getting cold over here. Good flow (it's been raining a little), a little slippery but not too bad. All anchors okay as usual. The numbered rappels are only in the lower part, the upper part needs to be finished.

Fairly open creek with simple verticals and some aesthetically beautiful rappels, wild environment--a little discontinuity but not particularly noticeable. Okay belays (traducción alternativa)

Good conditions, a bit dry, but normal for this canyon. New numbered plates on rappels, thanks to the local rescue team

Automatisch importiert von Descente-Canyon.com für Canyon Moregge Very strong flow after 3 days of thunderstorm. Done only the lower part. Very fun with this conditions but not for beginners. (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/22158/observations.html)

High water flow due to thunderstorm the last days. Still doable with care. Added photo of last rappel (visible from the road) for reference. Only lower part, I will enter description of how to do it when I have time
