Resumen: (traducción alternativa)
Jumping and rappel canyon with huge pools and a long hiking trail in an open environment. Cost: €4.50 per person. Registration at alpin-sport@tnr.at. See photos.

Hidrología:

Acceso: (traducción alternativa)
Coming from Füssen on the bypass road past Reutte, take the southern exit Reutte and turn left under the road to the Fernpaß, following the signs to Plansee, Linderhof Castle, Oberammergau. After approx. 2.5 km there is an unpaved parking lot for approx. 10 cars to the right of the road. Park your car here. This is also the starting point for the hike to the Zunterkopf. To the left of the road, you will see a chapel at the edge of the forest, slightly elevated and partially obscured by bushes. Coming from Munich on the A95 towards Garmisch-Partenkirchen, turn off the B 2 (extension of the A 95) in Oberau towards Oberammergau. Take the B 23 through Ettal and approx. 600 m after the end of the village turn left onto the St 2060 in the direction of Linderhof Castle, Plansee, Reutte/Tyrol. Pass Linderhof and continue over the Ammersattel to Plansee. Along this and the following small Plansee, the road finally crosses the Archbach, the outflow of the lake. 800 m further on, the above-mentioned chapel is on the righthand side and after another 50-100 m the parking lot is on the left.

Acceso: (traducción alternativa)
From the parking lot, head first to the chapel. To the west (left of) the chapel, a path leads into the forest and down towards Archbach. After approx. 100 m, you come to the hiking trail coming from Reutte in the direction of Plansee. Follow this (to the right) to gain an insight into the open canyon and see the upper abseiling point above the large pool. A little further on, you come to a dam and enter the Archbach stream below (at 950 m).

Recorrido: (traducción alternativa)
With a total duration of 2-2.5 hours (for 2 people), this is a half-day tour. For photos, an entry in the early afternoon is favorable, as then the sun (if available) shines on the waterfalls. The brave can dare a high jump (approx. 15m) from a ledge (after crossing) during the 2nd rappelling route. There are also transfer facilities here. As the name Stuiben Falls suggests, there are 2 waterfalls (approx. 25 m and 40 m), a few jumping pools and a flat, easy walk. The stream can also be walked further down to the E-Werk. To do this, take the path on the left bank. Where it rises, turn right into the stream. This is followed by a narrow section with a couple of jumping pools.

Regreso: (traducción alternativa)
Approx. 100m downstream after the large Stuibenfall (at 830m altitude), a small path leads up from the streambed on the left and after a few meters joins the hiking trail that we followed - further up - on the approach to the entry. Keeping to the left at a few forks, you will repeatedly gain views back into the canyon ascent. After reaching the starting height, where the path then runs level, we turn back onto the path to the chapel and reach the parking lot in a few minutes.
If you descend to the level of the E-Werk, turn left over the footbridge and continue to the parking lot exit.

There were four of us on the trip; it took us 2.5 hours to complete the entire stream, though we did jump some sections 3–4 times. It’s worth getting there early, since there aren’t any commercial groups yet. There are cool possible jumps right at the start. The 15-meter jump is accessible only from the middle or upper left rappel station. For the 10-meter jump, use the aluminum ladder on the upper left. (traducción alternativa)

Pretty nice stream, 2 rappels, that’s it... It wasn’t worth the €4.50 entry fee. The jumping was okay. It’s probably more suited for commercial canyoning. At the first belay station (R24), don’t use the fixed carabiner on the left side—it’s severely deformed and will probably give out soon. It’s better to use the right-hand chain anchor. The central chain anchor at R33 is pretty good for pulling the chain, but you have to swing in slightly from the left. That could be tricky for beginners. Otherwise, it’s better to do the 33 meters in one go. An intermediate belay is unnecessary, unless you plan to do S15. The lower section is a great route for kids; otherwise, there’s little incentive to include it. Belay stations were generally in good condition. (traducción alternativa)

Highly commercialized and always many spectators. A bit of a hike from the waterfall to the 2nd part with the jumping pools. (traducción alternativa)

Short but funny jumps. Early season already some commercial tours there. Combination with another tour close by is recommended (Häselgehrbach). (traducción alternativa)

Good conditions... everything i.o (traducción alternativa)

2025-07-27 | Christian Balla | ☆ ☆ ☆ |🕮 ★ ★ ★ |⚓ ★ ★ ★ | 〰 Normal | 👍 Completado
Thanks to regulation, even after a lot of rain in recent weeks with normal water level and feasible without problems. Very well equipped, anchors for special individual rope courses can no longer be used, but still top equipped due to the large number of anchors. 4.50 per person, we were also able to pay by SEPA transfer. Additional costs for the upper parking lot: 6€/day. (traducción alternativa)

Cool tour... Everything was ok. (traducción alternativa)

2023-07-11 | Patrick Summerer | ☆ ☆ ☆ ☆ ☆ |🕮 ★ ★ ★ |⚓ ★ ★ ★ | 〰 Bajo | 👍 Completado
Short but very worthwhile tour, perfect for cooling off on hot days. From the parking lot at the substation you need about 35min to the entrance, and the few jumps after the longer flat passage should be taken. (traducción alternativa)
