País: Schweiz / Switzerland **Región:** Kanton Tessin / Cantone Ticino **Subregione:** Bezirk Lugano **Ciudad:** Melano		
Dificultad: muy difícil	**Grado:** v6 a2 IV	**Tiempo total:** 7h10
Tiempo acceso: 2h	**Tiempo tour:** 5h	**Tiempo regreso:** 10min
Altitud de entrada: 900m	**Altitud de salida:** 330m	**Altitude delta:** 570m
Longitud del cañón: 800m	**Rapel más alto:** 180m	**Cantidad rapells:** 16
Transporte: A pie	**Tipo de roca:** limestone	**Zona de entrada:** 1.00km²
Temporada: abril - octubre	**Orientación:** Oeste	**Mejor época:** 10-16 Horas
Clasificación: ☆ 3.5 (3)	**Información:** ★ 1.8 (4)	**Belay:** ★ 1.3 (4)

Advertencias:
Es difícil tirar de la cuerda
La recomendación es ir con al menos 2x80m y 120m (o 20m + 100m), ya que hay bastante tirón de cuerda en los primeros 75m de los 180m debido al musgo, y no es fácil soltarse de la cuerda.

Especialidades:
Sólo caminar después de la lluvia, Regenbach,

Equipo:
Cuerdas: 2x 100m

Resumen: (traducción alternativa)
Vertical tour that is beautiful and can be done directly after the rain. Certainly one of the best rain streams in Ticino.

Hidrología: (traducción alternativa)
Small catchment area in the limestone, it doesn't take long for the water level to come down.

Acceso: (traducción alternativa)
In Melano there is a parking lot near the exit. Otherwise in Rovio at the top, but you have to climb 200m again after the canyon.

Acceso: (traducción alternativa)
Follow the hiking trail up to Alpe Melano and then join the trail at the stream.

Recorrido: (traducción alternativa)
At the beginning there are many wide rappels, some of which are made from trees, after the 120m (30+90) waterfall it becomes narrower and very beautiful. At the final waterfall of 180m the following mass is currently drilled in (September 2025):
10m from the left
75m from the right (if necessary, there is also a stand on the right behind the free-standing tower to rappel down dry, but don't think about rappelling there, it will get stuck on the top of the tower anyway).
110m from the left (or swing 20m from the left far over to the right followed by 90m to the right)

Regreso: (traducción alternativa)
Follow the streambed for 2 minutes and then turn right onto the path.

Coordenadas:
Inicio del Cañón 45.9212 9.0033
Final del Cañón 45.9216 8.9917
Aparcamiento a la entrada 45.9325 8.9875
Aparcamiento a la salida 45.9191 8.9855

Now the 180 has also been re-drilled. It certainly makes sense for the next ones to take an adjustable wrench with them to tighten the old anchors and also cut away the old connecting ropes between these anchors. (traducción alternativa)

Drilled 15 anchors, unfortunately the battery ran out right before the big 180, so we went down through the forest (very steep, but you can get through without needing ropes). I have to come back again with 5 anchors, the intermediate pitches in the last waterfall are still missing. (traducción alternativa)

Still a bit much at the moment, but I think it will be perfect tomorrow if anyone wants to venture in. But beware, it's adventurous terrain. (traducción alternativa)

Cool creek, you will rarely have perfect conditions like it was today (200mm of rain about 24 hours before). However, the next group should definitely take enough anchors with them, some stands are missing on the big rappels, and some of them look very bad. (traducción alternativa)
