Automatisch importiert von Descente-Canyon.com für Canyon Giuf DC-Équipement ok, bien penser à chercher les relais protégés des crues.Nous sommes partis à pieds du village, le chemin pavé et étroit menant au parking indiqué n'est pas évident pour tous les véhicules ! As we were changing to go inside, the drain of a roadside tank was opened, which poured a lot of water into the creek, causing the flow rate to suddenly rise. The engineers assured us that the level would not rise any higher. The creek remains passable, so we went in and had no problems. We were told that this kind of operation is often done to clean the aqueduct tanks after rains. (traducción alternativa)
