Cuerdas: 1x20m/ 1x10m

Resumen: (traducción alternativa)
Very aquatic; limestone; large return flow in pools of the 'washing machine'; short, open canyon; good swimming skills an advantage; exit often possible (on left side).

Hidrología:

Acceso: (traducción alternativa)
Exit the A10 in Gmünd into the Maltatal and drive to the toll booth at the bottom of the valley --> Parking in front of the inn. at the water features (left side).

Acceso: (traducción alternativa)
From the parking lot past the inn --> past the next small hut through the forest up to the road --> continue to the marked sign --> here a path (barrier) branches off (right) after 50m --> follow the path to the stream.

Recorrido: (traducción alternativa)
Very short but rewarding tour, possible jumps up to 17m. All passages are visible from the hiking trail. Clear landowners/hunting tenants

At the beginning you can climb up to the first waterfall after a small climbing passage (right) --> slide or jump possible --> after a short walking passages and small tobogans you come to a place that you should definitely look at beforehand (washing machine) --> on the right side there is a rope traverse from which you can see the place well --> here the first person should have white water swimming skills in order to be able to set up a rope ferry if necessary --> the first person should have white water swimming skills. If you get into the circular return flow, you need strength to be able to swim out again --> the next point is not very dangerous --> however, you are briefly flushed under water (slide with underwash) --> short walking passages.

Regreso: (traducción alternativa)
After the walking section, head left along the forest path to the road and through the forest back to the inn and parking lot --> or follow the course of the water until you reach an abseiling point on the left (R15li) and then another jump (be careful!) into large pools --> the way back leads along the forest path on the left to the parking lot.
