Resumen: (traducción alternativa)
Rappel canyon, without water flow in summer

Hidrología:

Acceso: (traducción alternativa)
Lower parking lot: We drive north on the A-138 from Ainsa in the direction of Bielsa. We come via Labuerda and Escalona to the bridge over the Rio Yaga, where the Miraval canyon exits - 17 km from Ainsa, town center. We pass the hamlet of Hospital and 450 m after the bridge over the Rio Yaga we turn left at an acute angle uphill towards Tella, Revilla. We drive steadily uphill, leave the turn-off to Tella on the right after 5.7 km, continue towards Revilla and after a further 4.9 km come to a sharp right-hand bend, on the left-hand edge of which there is a large open space to park our car. From here it is another 0.9 km to Revilla.

Upper parking lot: Continue on the road for another 900m until you reach a parking area in a rightward haipin bend (several information boards)

Acceso: (traducción alternativa)
From the serpentine we then take the path that leads roughly horizontally to the NNW and a few minutes later we are at the streambed.

Recorrido: (traducción alternativa)
18 rappels, some of them jumpable. In summer some Marmitas Trampas, the final abseil in the free slope down to the path that leads right to Escuain and the garganta of the same name.

Regreso: (traducción alternativa)
After the aforementioned final abseil, turn left onto a good path and follow it up to the road and your car.

Automatisch importiert von Descente-Canyon.com für Canyon Consusa (inferior) Nous avons oublié un double 8 avec une dégaine, si quelqu'un l'a trouvé, 07 77 84 71 36. Ce serait sympa.Concernant la journée,Canyon toujours aussi magnifique avec de l'eau.L'équipement est top. Il reste de la neige au-dessus, mais du coup l'eau est très froide, 5° (thermomètre dans le sac) L'air est également très froid.
