País: España / Spain **Región:** Aragón **Subregione:** Huesca **Ciudad:** Colungo		
Dificultad: no tan difícil	**Grado:** v3 a1 III	**Tiempo total:** 1h40
Tiempo acceso: 5min	**Tiempo tour:** 1h15	**Tiempo regreso:** 20min
Altitud de entrada: 640m	**Altitud de salida:** 595m	**Altitude delta:** 45m
Longitud del cañón: 300m	**Rapel más alto:** 7m	**Cantidad rapells:** 6
Transporte: A pie	**Tipo de roca:** conglomerate	**Zona de entrada:** km²
Temporada:	**Orientación:** Oeste	**Mejor época:**
Clasificación: ☆ 3.4 (7)	**Información:** ★ 2.8 (5)	**Belay:** ★ 2.8 (5)

Especialidades:
Regulado,

Equipo:
Cuerdas: 1x20m

Resumen: (traducción alternativa)
Conglomerate rappel canyon with water flow into the summer

Hidrología:

Acceso: (traducción alternativa)
From Barbastro in the direction of Alquézar. After about 20 km on the newly extended A-1232, turn right at the junction at the Rio Vero bridge (beyond the Camping Rio Vero bridge) and continue on the A-2205 via Colungo in the direction of Arcusa, Ainsa. The road now winds its way northwards. You cross the Bco Palomeras Fornocal (8.1 km from Rio Vero bridge). On the other side of the bridge, we can park our car on the left-hand side of the road.

Acceso: (traducción alternativa)
From the car we take the path that heads east at the northern end of the bridge, on the orographic right slope of the Barranco. We cross the bush zone and then immediately descend into the streambed.

Recorrido: (traducción alternativa)
6 rappels down into the narrow, dark gorge. We then walk and jam along the bottom to the Fornocal.

Regreso: (traducción alternativa)
Directly from the end of the gorge on the opposite slope, ascend onto a path. The first few meters are indistinct, then the path soon becomes more clearly visible. A rope safety device and a massive concrete staircase help you over a conglomerate upswing before the remaining meters of altitude are overcome with steep hairpin bends.

Coordenadas:
Inicio del Cañón 42.1875 0.0651
Final del Cañón 42.1865 0.0609

Automatisch importiert von Descente-Canyon.com für Canyon Palomeras del Fornocal très beau canyon, avec marche d'approche très rapide on voit le début du canyon de la route, retour rapide mais très raide en aval du pont (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/2803/observations.html)

Unfortunately, there are completely dry, stagnant, and smelly pools that you have to wade through. It’s very narrow in places. Not recommended without water. The atmosphere is certainly quite nice when it doesn’t stink. (traducción alternativa)

Automatisch importiert von Descente-Canyon.com für Canyon Palomeras del Fornocal DC - - a la limite du petit filet. Court, efficace et très esthétique. Les estrechos sont superbes. Une carcasse de petit chevreuil sur les derniers mètres. Retour en remontant le Fornocal. Ne pas rater un cairn rive droite avant d'arriver aux piles du pont (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/2803/observations.html)
