Clasificación: ☆ 3.7 (4)	**Información:** ★ 2 (1)	**Belay:** ★ 2 (4)

Advertencias:
Too much water flow in the receiving water
There is the situation that the water flow in the canyon descent is fine, but the canyon then flows into a receiving stream that carries too much water and this dangerous predicament cannot be avoided (e.g. in the side canyons that go into Balcés Estrechos, e.g. Barranco Pallas, see also 2 pictures

Especialidades:

Equipo:
Cuerdas: 1x40m+1x50m

Resumen: (traducción alternativa)
Quite short, but above all scenically attractive canyon in layered limestone

Hidrología:

Acceso: (traducción alternativa)
from Çorovoda at the Osumi river to the parking lot exit see route on google maps under links, also for the conversion to P entry

Acceso: (traducción alternativa)
From the bridge on the left edge of the stream, rope 15m downstream and onto the streambed.

Recorrido: (traducción alternativa)
First a few smaller rappels in Blezenckë, then the two higher steps down into the Osumi river. The last step is also called the "waterfall of love".
In the Osumi River then about 450m down, see photo album and video under Links.

Regreso: (traducción alternativa)
Exit after rock slabs at a sandy bank on the right. You come to a path that initially goes right up the slope. At a fork, turn left and you come to the picnic area and the car. See at

Nice tour with quite pleasant water temperature. Stands all ok. Super final waterfall (Waterfall of Love) which leads into the Osumi River. Check the water level here. On our ascent it was low, so you could easily float or walk to the exit point. Combined with Bigasit, a great day of canyoning! (traducción alternativa)

Short but very beautiful. The arrival between the massive walls of the osumi river and the short passage to the exit are well worth it. Water level in the osumi river is low. (traducción alternativa)

Unfortunately very little water. Only a pair of neoprene pants will do.... Nevertheless, even though the tour is very short, we really enjoyed it. (traducción alternativa)
