Resumen: (traducción alternativa)
forest canyon

Hidrología:

Acceso: (traducción alternativa)
From Geneva, take the A 40 to exit 17 (approx. 30 km); turn off there and continue on the N 205 in the direction of Sallanches. After about 1.5 km, turn right onto the D 186 in the direction of Brizon. Pass through Thuet and at the start of the climb, park the first vehicle at a fountain on the left.
Continue uphill with the second and park just before the bridge under the rock face.

Acceso: (traducción alternativa)
Straight down to the creek.

Recorrido: (traducción alternativa)
Dark forest canyon not without charm, which can be dangerous if there is too much water (backflow), but if there is too little water, the existing pollution becomes clear.
Possibly prohibited seasonally when there is little water flow, see:\nhttp://www.descente-canyon.com/canyoning.php/202-2243-Bronze.html
In the mentioned literature finding, it should be possible to park at the bottom in another place and access on foot from down there.

Regreso: (traducción alternativa)
At the dam with the water drainage left out and along the lower edge of the slope - pathless - to the car at the fountain.
