Resumen: (traducción alternativa)
Relatively open rappel canyon

Hidrología:

Acceso: (traducción alternativa)
From Annecy, on the western shore of the lake of the same name, take the D 909 (from the highway, it is better to go around Annecy on the D 16) in the direction of Thônes or La Clusaz. When you have crossed (after about 15 km) the river Fier, you immediately turn left at a sharp angle towards la Balme de Thuy. Passing a saw, you cross the Morette, then immediately turn right uphill and put the car in the large parking lot.

Acceso: (traducción alternativa)
From the parking lot initially on a forest road in a roughly northerly direction uphill. Then turn right on a path that leads us up through the rock walls (with beautiful views). At a tree on the right of the path we find a signpost "16 CIRCUIT DES CASCADES". A little later we cross the Morette and descend on clear tracks to the left of the stream to the entry just above the clamping block.

Recorrido: (traducción alternativa)
As the Morette is "accessed" via a so-called waterfall course, you can also start below the C45.
With the high rappel in the stream, you should turn right (orographic) after the first 20 m in order to get out of the possibly strong stream as soon as possible.
The waterfall visible from the main valley is only a drainage of the Morette.

Regreso: (traducción alternativa)
Out by the bridge and then right up the small tarred road to the car.
