We skipped the last three rappels and only completed the first part of the canyon. Surface was very slippery and plenty of anchorpoints are a bit futher away so make sure you're comfortable with (multipoint) traverse lines. One of them is a free hanging one. Shout out to the two canyoneers from La Clusaz that told us the slide was safe to use! Impressed with your speed.

Automatisch importiert von Descente-Canyon.com für Canyon Sambuis Surface glissante à pas mal d'endroits, un peu la jungle avant de rejoindre le chemin. Mais beau canyon dans son ensemble ! Equipement RAS (Quelle:
