Cuerdas: 1x25m

Resumen: (traducción alternativa)
The Rio Yaga, which rises from the national park around Monte Perdido, breaks through an impressive aquatic gorge in its lower course before flowing into the Rio Cinca.

Hidrología:

Acceso: (traducción alternativa)
We drive north on the A-138 from Ainsa in the direction of Bielsa. We come via Labuerda and Escalona to the bridge over the Rio Yaga (17 km from Ainsa, town center), where the Miraval Canyon exits. Here we park the car for the exit.
In the second car, drive past the hamlet of Hospital and 450 m after the bridge over the Rio Yaga, turn left uphill at an acute angle in the direction of Tella, Revilla. Before the first houses of Cortalavina - 3.2 km from the A-138 - we take the gravel road on the left towards Miraval. Follow this road for about 3.5 km until you emerge from the forest into an open space. About 50 m further on, we park our second car.
Access without shuttle: http://www.wikiloc.com/wikiloc/view.do?id=10235837

Acceso: (traducción alternativa)
From the parking lot on the path closed to motor vehicles a few hundred meters through the forest to the houses of Miraval and a bridge. Proceed along the left bank of the river to the beginning of the gorge:
http://www.wikiloc.com/wikiloc/view.do?id=14717382

Recorrido: (traducción alternativa)
There are two places we should pay attention to: First, a short fixed rope on the right side. You should not slide in here on the left side, even if the fixed ropes are "occupied". This is because you will come across rocks that are out of alignment and there is a high risk of injury. Be careful with jumps in general: The underwater is often blocked or less deep than expected!
The second place is a narrow chute that can be overcome using a spreading or clamping technique.

Regreso: (traducción alternativa)
After the exit of the gorge in a wide gravel bed to the road bridge; get off before it on the left.

Automatisch importiert von Descente-Canyon.com für Canyon Miraval DC- Jolie balade aquatique, peu d'obstacles mais belles étroitures. Descendus seulement la partie supérieure en se garant au parking 1 avec Titi l'Anguille. Merci au CAF de Pau de nous avoir permis de doubler en utilisant leurs cordes. (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/20961/observations.html)
