Resumen: (traducción alternativa) Nice tour near the Gotthard tunnel. Alternating small and large rappels, a few jumps.		
Hidrología: (traducción alternativa) Canyon with medium catchment area, generally goes after a few days without rain.		
Acceso: (traducción alternativa) You can drive to the entrance bridge by car. There is a parking lot there.		
Acceso: (traducción alternativa) Right next to the parking lot.		
Recorrido: (traducción alternativa) C20 from the bridge (possibly jump 15m, still unsure ?) C10 left MC25, the anchors are now at 2.5m. If not slippery, you can probably go to the tree in front on the right, and then pull over to the left to the belay. C65, goes well next to the water. C12 dry on the right T4 C15, difficult to reach, be careful if there is a lot of water, the gap at the exit is unpleasant and dangerous. C20 MC20 right (for C55) C40 left, the anchors are well hidden behind the corner. C20 left flat C10 left, hidden in the overhang. C7 right C20 left C25 right C15, if not covered with gravel S10 C5, or S3 C22 with ponytail		
Regreso: (traducción alternativa) At the bridge, take the hiking trail and return to the village of Chiggiogna.

Automatisch importiert von Descente-Canyon.com für Canyon Croaescio Some anchors are weirdly placed. MC 20 at the c55 is kinda tricky. You have to climb up a very slippery rock that tilts towards the waterfall. Difficult to go back up if you slide in (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/22742/observations.html>)

Nice flow, anchor placement wasn't optimal

Nice canyon, I'll probably go back next time to defuse a few MC spots with the drill and check out a few more possible jumps, now it had too much water to say for sure (just from the bridge at the beginning) (traducción alternativa)
