Resumen: (traducción alternativa) Fun Canyon		
Hidrología:		
Acceso: (traducción alternativa) From Grenoble on the new A 51 southward in the direction of Sisteron (or via N 75) to Monestier-de-Clermont (approx. 35 km). From the northern edge of the town, take the D 8 to St. Guillaume (6.5 km). From here, continue on the D 242 in the direction of St. Andeol. After about 1 km, we come to the bridge (Pont de la Massette) that spans the little river Gresse. Before the bridge the track on the left and after about 100m we come to a small electric plant. Park the first vehicle near here. With the second back to the bridge and up to St. Andeol, we pass through the village and a few meters after the end of the village we come to a road that leads down to the left to the hamlet of Chazeaux. Just at the beginning of this road, a parking lot is designated on the right in the meadow for the gorges (2009). If you come by motorhome, you will find a designated overnight spot with a water tap by continuing on the main road for another hundred meters or so, then turn left.		
Acceso: (traducción alternativa) We hike through the hamlet of Chazeaux and follow the track that descends and crosses a side stream of the Berriève at the edge of the forest. We follow the tracks downhill on the right bank of the side stream, later we come across a slightly wider track and follow it until we see the Berriève and can descend to the streambed. From the camper site approach according to Wikiloc link.		
Recorrido: (traducción alternativa) Well-frequented canyon with two quite different parts (first small-scale gorge, later rappel canyon) connected by a relatively long passage, where at times you walk on paths on the edge of the stream. An existing contamination is recognizable by the smell. Some jumps and a slide possible at the exit of the tour.		
Regreso: (traducción alternativa) After the prominent double step with the final high slide out to the right and on clear tracks down to the Gresse, cross this and to the vehicle at the E-Werk. Here also toilet.		
Coordenadas: Inicio del Cañón 44.9511 5.5528 Final del Cañón 44.9541 5.5686 Aparcamiento a la entrada 44.9577 5.5513 Aparcamiento a la salida 44.9547 5.5694

Automatisch importiert von Descente-Canyon.com für Canyon Moules Marinières Un dc- aujourd'hui. La planche étant cassée, c'est sympa de descendre par le tob à droite. Le saut à l'avant dernière vasque est évidemment impossible, mais le tob final passe (ça touche quand même...) (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/23/observations.html>)
