País: Schweiz / Switzerland **Región:** Kanton Tessin / Cantone Ticino **Subregione:** Bezirk Bellinzona **Ciudad:** Gudo		
Dificultad: no tan difícil	**Grado:** v3 a1 I	**Tiempo total:** 2h25
Tiempo acceso: 20min	**Tiempo tour:** 2h	**Tiempo regreso:** 5min
Altitud de entrada: 390m	**Altitud de salida:** 230m	**Altitude delta:** 160m
Longitud del cañón: 250m	**Rapel más alto:** 30m	**Cantidad rapells:** 10
Transporte: Coche opcional	**Tipo de roca:**	**Zona de entrada:** km²
Temporada: enero - diciembre	**Orientación:** Sur	**Mejor época:** 9-16 Horas
Clasificación: ☆ 2.5 (12)	**Información:** ★ 2.3 (9)	**Belay:** ★ 1.8 (12)

Especialidades:
Regenbach,

Equipo:
Cuerdas: 2x 30m

Resumen: (traducción alternativa)
Rain stream. Sequence of rappels in vegetation Emergency exit possible at any time.

Hidrología:

Acceso: (traducción alternativa)
From Bellinzona, take the country road on the right bank of the Ticino towards Tenero and Locarno. Cross the village of Sementina and approx. 3 km after Sementina turn off the main road to the right into the village of Gudo. Park on the right-hand side of the road 300 m after the turn-off from the main road.

Acceso: (traducción alternativa)
From the parking lot, follow the road up to the right in front of the church and follow the path until you reach the road. Continue to the right here. After approx. 100 m, follow the path uphill to the left until you reach the road again. Continue to the left until you reach the stream.

Recorrido: (traducción alternativa)
Absolutely rainy tour, almost always possible, whether heavy rain or melting snow.
Sequence of rappels up to max. 30 m. Some of the stands were a bit wobbly (as of 2021) and some of the trees with slings were questionable. Not recommended after periods of drought.

Regreso: (traducción alternativa)
Turn left out of the stream back to the car.

Coordenadas:
Final del Cañón 46.1754 8.9532
Medidor de nivel de agua 46.1753 8.9533
Aparcamiento Entrada y Salida 46.1757 8.9541
Inicio del Cañón 46.1782 8.9518

A good alternative after the rain and storms—and it's fun at this water level, too (traducción alternativa)

Slippery to walk. Ropes to make good use of the tree on the last thirty. (traducción alternativa)

2024-09-05 | Pepijn Hoeksema | ☆ ☆ ½ |🕮 ★ ★ ★ |⚓ ★ | Normal | Completado
We did this trip in the late afternoon after heavy rain in the morning and afternoon. Good option if there is to much water in the other canyons.

Anchorages sometimes a bit adventurous but OK. Tolerates a lot of water. (traducción alternativa)

2024-06-02 | Patrik | ☆ ☆ |🕮 ★ |⚓ ★ | Alto | Completado
With the current amount of water, many loose stones are being carried over the two C30s. For this reason, and because the pick has been removed from the last C30 (anchoring to a tree is possible), we left the route after the C8RD. A clearly visible path leads directly to the ascent route. (traducción alternativa)

The stream was a good alternative after rain and more rain was forecast. The water level was slightly higher than the higher reference pictures from "Eldorado Ticino". At the first rappel at the bridge we attached an additional rope. IMPORTANT: the last 30 (penultimate rappel) no longer has an anchor. We then went out. The tree may also be ortographic. Right. The left tree is unsuitable. (traducción alternativa)

We started this canyon on a day when the top canyons in Ticino had too much water. Very good alternative. Reparking not necessary (traducción alternativa)
