<b>Resumen:</b> (traducción alternativa) Short rappel canyon		
<b>Hidrología:</b>		
<b>Acceso:</b> (traducción alternativa) Coming from France (Perpignan) on the A-7 highway, leave it at the Figueres (Nord) exit and drive through the city onto the N-260 towards Olot, Ripoll, and at Olot turn onto the C-152, later the C-153 towards Vic. At first the road is flat, later it climbs steeply and after about 30 km (from Olot) you reach the turn-off (left = south) to Rupit. There is a large parking lot before Rupit. Turn right here, drive over the bridge (the river is the Rio or Riera de Rupit) and slowly descend on the road (approx. 2 km) until you come to a large plateau on the left, where it makes sense to park the car if you do not have a four-wheel drive vehicle.		
<b>Acceso:</b> (traducción alternativa) From the parking area, continue eastwards down the slope and soon you will be looking at a cauldron of imposing rocky outcrops ('Guilleries') up to 100 m high. You now cross the Rio de Rupit again - here begins the canyon Salt de Sallent de Rupit down to the right - and continue to follow the slope until a path on the right leads down to the entry into the Gravet. A little later you reach the streambed of the Ravet with the first rappel point.		
<b>Recorrido:</b> (traducción alternativa) Short canyon with a beautiful 30 m rappel (5 rappels in total) in a magnificent setting. If water flows at the beginning, it may soon seep away.		
<b>Regreso:</b> (traducción alternativa) After the last abseiling point with a larger pool, work your way down through boulders for another 50 m until you come to a path that crosses the stream (cairn on a larger boulder). Follow the path to the right (westwards) and continue along it under the rock faces until the entire path, clearly recognizable by the paving, leads in serpentine up to the plateau (approx. 25 min. to here). From here it is about 10 minutes back to the car.

## Informes:

---

2023-07-01 | Wolfgang Streicher | |📖|📌|🌊 Seco |👍 Completado

All levels ok. At the beginning water flow, which then fails in the course of the descent. The way up is a real clear climb, so do not follow any tracks prematurely right up! (traducción alternativa)
