Resumen: (traducción alternativa)
Beautiful day tour that requires quite a bit of walking.

Hidrología: (traducción alternativa)
South-facing, very clear water. Feasible from 600L/s at the Pincascia measuring station (sporty)

Low < 150l/sec; Medium; 150-300l/sec; High: 300-600l/sec; Very sporty >600l/sec

Acceso: (traducción alternativa)
Drive from Lavertezzo toward Verzuolo. In Verzuolo, follow the road down into the valley until you can go no further. The road is paved at first, then becomes a gravel road.

Acceso: (traducción alternativa)
From the parking lot, follow the zigzag trail up to Cognera. From there, continue to just below the hamlet of Agro at 1040 meters above sea level.

Recorrido: (traducción alternativa)
Beautiful pools

Siphon at the base of the first large waterfall (be sure to avoid it if taking the short RD route along the edge of the pool). On this climb, the lead climber must reach the top without a backpack.
Sunny around noon, with beautiful colors on the rocks and in the water. One of the most scenic canyons in Ticino, even if it isn’t very narrow.

Regreso: (traducción alternativa)
You walk back along the same path you took on the access

Automatisch importiert von Descente-Canyon.com für Canyon Agro Beautiful canyon with a lot of nice pools and swimmers. Some passages might get tricky with higher water flow. Not recommended for beginners - and bring a drill/perfo to add more anchors. (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/23267/observations.html)

Automatisch importiert von Descente-Canyon.com für Canyon Agro Nice tour. We placed 6 bolts, but you could easily place more! Pincascia had a flow rate of 350 liters. A comfortable water level for this gorge. (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/23267/observations.html)

Cool thing, if it were less remote it would certainly be one of the classics. (traducción alternativa)
