Resumen: (traducción alternativa)
2/4;1/2 Smileys
A very botanical streambed hike with beautiful downclimbs at the beginning and up to the halfway point.
Then there are some picturesque waterfalls until you reach the first hydroelectric power plants at the exit and soon walk to the left of the river towards the parking lot

Hidrología: (traducción alternativa)
Surprisingly much water, but also very defensively placed anchors

Acceso: (traducción alternativa)
Park in lumino at the top of the cable car parking lot

Acceso: (traducción alternativa)
Two options, both bad.
The orographic variant on the right goes up on a good hiking trail to the bolchetta haipin bends. From there, descend steeply to the streambed. Tricky, laborious.
Variant two orographic left is described at https://canyon.li/riale-grande/

Quite slippery in places. We made the orographic access on the right via the bolchetta bend. From the bend downhill steep and pathless adventure. You could try the orographic access on the left at about 500 meters directly to the streambed. Above approx. 500m the stream is not very worthwhile canyoneering. (traducción alternativa)
