País: Schweiz / Switzerland **Región:** Kanton Tessin / Cantone Ticino **Subregione:** Bezirk Riviera **Ciudad:** Osogna		
Dificultad: un poco difícil	**Grado:** v4 a3 III	**Tiempo total:** 6h15
Tiempo acceso: 2h15	**Tiempo tour:** 3h	**Tiempo regreso:** 1h
Altitud de entrada: 1015m	**Altitud de salida:** 835m	**Altitude delta:** 180m
Longitud del cañón: 750m	**Rapel más alto:** 35m	**Cantidad rapells:** 10
Transporte: A pie	**Tipo de roca:** granite	**Zona de entrada:** km²
Temporada: junio - septiembre	**Orientación:** Oeste	**Mejor época:** 9-12 Horas
Clasificación: ☆ 3.6 (10)	**Información:** ★ 2.4 (7)	**Belay:** ★ 2.2 (9)

Especialidades:
Presa (informar al operador), Presa (descarga autom.),

Equipo:
Cuerdas: 2x 35m

Resumen: (traducción alternativa)
Some nice shorter rappels, huge slides and technical jumps.

Hidrología: (traducción alternativa)
If necessary, water supply from the interconnected reservoir canal leading to the power plant (automatic opening of the sluice in case of problems in the canal or in the power plant, as in the case of the accident in 2001: https://www.nzz.ch/article7KF2C-ld.179745).

Acceso: (traducción alternativa)
From the freeway junction north of Bellinzona take the N2 towards Biasca. Passing through Claro and Cresciano we reach Osogna (11.4 km from the highway to the bridge over the Nala). After the bridge over the Nala, drive up to the cemetery and leave the car there.

Acceso: (traducción alternativa)
On foot:
Walk along the road above the parking lot towards the river and descend to the large terminal basin. Check the water flow, then cross the riverbed to the south and hike along the narrow mountain road to the start of the path to Pönt and Valle di Osogna. After the steep ascent to Pönt, the path becomes flatter and then enters the Valle di Osogna. From bridge 839, the path climbs again. At stone bridge 950, carefully check the water level in the basin below (this can become a trap). Climb the steep steps and at 1060 meters take the less visible path on your left down into the valley to the river and the outlet of the diversion channel.

Helicopter:
From the helipad, first go up to the houses I Cassin di Carli. There we take the hiking trail to the right. After the last houses, the path descends along a ridge. At an altitude of 1060m, we take the not very clearly recognizable path to the right. It leads us down to the entry at the outlet of the drainage channel.

Recorrido: (traducción alternativa)
The upper part starts after the water intake and accordingly carries little water. The water is generally quite cold. Many slides that need to be well checked out. There are also some possible jumps.

Regreso: (traducción alternativa)
Either get off at the bridge and go back down the access path or continue in the Nala Intermedio (see there).

Coordenadas:

Aparcamiento Entrada y Salida 46.3146 8.9861
Medidor de nivel de agua 46.3134 8.9880
Inicio del Cañón 46.3241 9.0157
Final del Cañón 46.3169 9.0098
Helipuerto 46.3243 9.0170

About a 15-minute walk downhill from the heliport; follow the blue markings to the entry. Some old anchors and slings. Everything is easily manageable. New rings would be a good idea. With Maria, Bogdan, and Markus (traducción alternativa)

After exactly 2 hours and 15 minutes of access, I entered the water—it was really dry, with a pool of cold water and big fish. The two anchors under the beautiful old stone bridge probably need to be replaced soon. (traducción alternativa)

Automatisch importiert von Descente-Canyon.com für Canyon Osogna (supérieur) Vérifié depuis le pont au-dessus du Trap Pool.Il manque 3 à 4 mètres d'eau dans ce bassin jusqu'au bord. La roche semble très adhérente. (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/22493/observations.html)

Automatisch importiert von Descente-Canyon.com für Canyon Osogna (supérieur) Fait l'intégrale, peu d'eau dans le sup mais vasques pleines, DC+ dans l'inter et l'inf. Magnifique. Beaucoup de monopoints... (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/22493/observations.html)

Automatisch importiert von Descente-Canyon.com für Canyon Osogna (supérieur) DC. Fait en intégrale à 2 en 9h avec marche d'approche. Très belle descente, on se fait bien arroser dans la 50m. Pas compris cette histoire de vasque piège. Même sans eau on peut en sortir facilement (de belle marche). (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/22493/observations.html)

2025-07-15 | System User | |🕮 |⚓ | 〰 Bajo | 👍 Completado
Automatisch importiert von Descente-Canyon.com für Canyon Osogna (supérieur) Débit très très faible ,certaine partie sont sèches.La vasques pièges est en action ! Il faut sortir avant !!! (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/22493/observations.html)

Lots of trees and slippery. (traducción alternativa)

2024-09-25 | Bavarian Canyoning | ⭐ ⭐ ⭐ ⭐ |🕮 |⚓ ⚫ ⚫ ⚫ | 〰 Normal | 👍 Completado
We entered the canyon by helicopter shortly after the water intake. There are several obstructions in the superiore, but these can be easily negotiated. The rock was very slippery and the anchors were in good condition. (traducción alternativa)

2024-09-14 | System User | |🕮 |⚓ | 〰 Bajo | 👍 Completado
Automatisch importiert von Descente-Canyon.com für Canyon Osogna (supérieur) Très joli enchaînement. La partie supérieure me paraît plus intéressante que l’intermédiaire. (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/22493/observations.html)
