Resumen: (traducción alternativa)
The Feientobel is a forest canyon, the adjoining Fallbach a high rappel.

Hidrología: (traducción alternativa)
https://vowis.vorarlberg.at/stationsInfo/tbl_Abflussstationen.aspx

Acceso: (traducción alternativa)
From Dornbirn on the B 190 south (about 7 km) to Hohenems - or via the exit 'Hohenems' of the highway Bregenz - Feldkirch. From the B 190 in about the center of Hohenems turn off southeastward and follow the signpost 'Schuttannen' steeply uphill, first on paved, then on unpaved road. At a little over 1000 m above sea level, you reach a plateau with some alpine pastures and park in front of the barrier with the pasture grate.

Acceso: (traducción alternativa)
Passing through the iron turnstile, you reach the dirt road, which initially runs flat toward the north, past a water trough on the right and another on the left, then descends gently into the forest. You cross the Feienbach on a bridge. About 100 m further on, the trail forks. Take the left fork and follow it downhill until you cross the Feienbach again. On the orographic left bank, continue along the path for about 200 m downstream to the entry at or slightly below the stone step.

Alternative access from the valley: http://www.tfj.ch/karren-dornbirn/dornbirn-fallbach.html.
2nd alternative: Take the Karrenbahn cable car.

Recorrido: (traducción alternativa)
Only at the beginning is there an attractive forest canyon with fairly smooth terrain. Water flow is generally rather meager.

If, at the end of the Feientobel, you don’t turn left onto the trail but continue downstream, after a few hundred meters you’ll reach a rappel section reportedly 100 m high (which can likely be broken up after about 60 m)—perhaps the “highlight” for those interested. However, in that case, it’s recommended to take the ascent via the path mentioned above (see link above under “Alternative Approach”) or to go to the trouble of moving your vehicles around.

Regreso: (traducción alternativa)
Either after the exit of the Feientobel on the path that crosses the stream here left up and back to the car (60 min.) or continue in the Fallbach and down into the valley near Dornbirn. There to the car parked here for the exit.

Coordenadas:
Final del Cañón 47.3854 9.7414

Everything's fine, but there's a lot of wood in it. (traducción alternativa)

A beautiful forest canyon with a final abseil of a good 90 meters. Wonderful view, at the 90 meter rappel, all the way to Lake Constance. Beautiful canyon. We parked one car near the parking exit and then took the second car to the Karren cable car. One-way ticket with the cable car 11.90 euros. From the mountain station we hiked via Kühberg on a partly narrow path directly to the entry. From the entry point, we first hiked along the streambed to the first rappel. With short slides and rappels, it goes nicely downstream. Only one place with a lot of driftwood. At the crossroads, we first walked a few meters along the wire rope from the hiking trail to the right, then descended back into the streambed. At the high rappel there are two stands with chains. We rappelled from the upper to the lower one, about 10 meters. From the lower stand, directly at the edge, we descended about 90 meters vertically, partly in the water. Stands all ok. 2*100 meters of ropes are enough. All in all a nice short canyon. We needed just under 2 hours for the canyon. (traducción alternativa)
