Resumen: (traducción alternativa)
A small but beautiful canyon. Ideal for practicing different techniques in the canyon, as there are many different stands within a short distance. The Torrent de Saint-Crépin can also easily be climbed twice in succession.

Hidrología: (traducción alternativa)
Usually only a small rinsal. Immediately after rain there can be a large amount of water with a lot of sediment, but only 2 hours after heavy rain there is an optimal amount of water with clear water.

Acceso: (traducción alternativa)
RN 94 between Embrun and Briançon, stop in the village of Saint-Crépin. Park near the cemetery.

Acceso: (traducción alternativa)
From the cemetery, walk uphill on the left-hand side of the river. Pass a water reservoir and follow a well-marked path in serpentines. Walk uphill to an altitude of 1250 meters. From here, leave the path towards the canyon by turning right at a green-marked tree. After a short walk between fir trees, a handrail leads to an abseiling point on a tree. Rappel about 15 meters, overhanging at the exit.

Little commitment.

Remarks
Beautiful, sunny descent offering a lovely view of the Durance.
This canyon is still called "Torrent de Saint-Crépin".
Canyon rarely flooded; with an "unsurprising" amount of water (visible from the parking lot).
It is possible to take a shuttle bus up to the hamlet of "Le Villard". In this case, the approach time is replaced by a fairly "vegetative" river walk of about ten minutes before arriving at the canyon proper.

Regreso: (traducción alternativa)
