Acceso: (traducción alternativa) Shuttle possible but not practical. From the SS 299 of the Sesia Valley, pass the village of Mollia, where you can park your car in the clearing in front of the Rio bridge. Take the shuttle bus downstream from Mollia and drive up a small road to Piana Fontana. (parking lot) On foot, first climb up the dirt road that runs above the village of Piana Fontana. You pass the village and, after losing some height, you reach a wooden gate on the left that blocks the way. From here, take the steep path 282, marked in red and white, up to the right towards the huts of Piana Viana. The path continues between the huts, then becomes less steep and leads you to the stream.

We made a wrong approach trusting the du opencanyon map but it is wrong...actually it is another creek follow description or better that of gulliver, however entered beside a group of houses x easy access, maybe we missed a part...canyon quite slippery (traducción alternativa)

Open canyon with mostly supported rappels, max. vertical 38 m, V4A2II, ideal to travel it in spring with good flow. (traducción alternativa)

Simple and sunny canyon, very open environment... At this time almost dry and slippery however it has some aesthetically interesting rappels especially in the first part and at the end... It is not easy to find the trail from Piana Bianca onward (traducción alternativa)

Finally good water flow in this open south facing canyon. Not sure if the 2nd slide is really a slide, seems really aggressive to me
