Resumen: (traducción alternativa) Short but beautiful swimming passages in the Mitterweißenbach. It is often used by kayakers (although they do this in spring when there is plenty of water). However, the passage is only safe for canyoneers at low water! Various anchors and fixed ropes are available to (partially) bypass the critical points. Not without danger at higher water levels!		
Hidrología:		
Acceso: (traducción alternativa) By car on the Westautobahn exit at Regau, just before Bad Ischl a road branches off in the direction of Weißenbach am Attersee. Follow this road for about 4km until you see a parking lot with a small chapel on the left side of the road. Park here.		
Acceso: (traducción alternativa) Descend at the bridge over the Höllbach.		
Recorrido: (traducción alternativa) With the help of two fixed ropes you descend into the Weißenbach. After swimming through a few pools, you reach a 2m jump. After that, a short walking section is followed by a 3m slide and again a few pools.		
Regreso: (traducción alternativa) Get off on the left side and hike back on a small trail along the canyon.

Can be easily combined with other canyons (e.g. Grabenbach). Ropes and harness are not necessary. Approx. 3 jumps and some swimming passages and that's it. Total time approx. 20 min. (traducción alternativa)

Water level well feasible, fixed ropes available, but not absolutely necessary. (traducción alternativa)

Kayak section for swimming down. There are good stands in front of the waterfalls to swim to and jump over the whitewater elements. Pools were all deep and free with me. (traducción alternativa)
