Resumen: (traducción alternativa)
Interesting, entertaining rappel canyon with some slides.

Hidrología:

Acceso: (traducción alternativa)
Coming from Locarno, turn into Valle Verzasca in Gordola and follow the road to Lavertezzo, passing through Motta (small bar on the left). Shortly afterwards you cross the stream and reach the parking lot on the left behind a second stream (June 2023 CHF 5/day).

Acceso: (traducción alternativa)
From the parking lot, follow the road back towards Motta. A staircase and an access road to a meadow appear on the left, which you follow. At the edge of the forest, a small path branches off to the left (blue markings from RIC 2018, arrow with wavy lines).
First you cross the Vallegg della Rozzera, after about 10 minutes you reach a small, picturesque settlement, at the exit of which a path leads to Cortasc, another small settlement. Here you look for the path between the houses to the stream, which you reach after about 10 minutes.

Recorrido: (traducción alternativa)
The tour begins with small steps and some slippery spots. When you reach the lower houses again, it becomes open and sunny and the rappels higher.

Regreso: (traducción alternativa)
Cross the stream to the fence, from there a small path leads to the parking lot in 2 minutes.

The water level was nice after the rain last night. We set off toward Rozzera from the bridge. (traducción alternativa)

Walked from the bridge in combination with Rozzera. All stands from the bridge are OK. (traducción alternativa)

Better grip than expected. After the rain yesterday (30mm) and the last time the canyon was in superiore conditions. (traducción alternativa)

Always very slippery in the water, but it goes well. The water is already very warm here. (traducción alternativa)

Quite slippery in the water, most of it can be walked on dry. Beautiful clear pools at the top, becoming darker at the bottom. (traducción alternativa)

Rather a little more than "normal" water level. All anchors good. In the upper part a few nice little slides. (traducción alternativa)

Walked the lower part. Good water level...a few slides and lots of sun. Great connection to the Rozzera (traducción alternativa)

Water level between low and normal. All single pitons, but these are good. Very easy to walk in comparison. Water quite cold, beautiful in the sun. (traducción alternativa)
