Resumen: (traducción alternativa)
Open rappel canyon

Hidrología:

Acceso: (traducción alternativa)
Leave the A 41 (Chambery - Grenoble) at exit 23 (Touvet/Goncelin), then take the D 29 westwards for a few hundred meters in the direction of Touvet until you reach the D 1090. Head north on the D 1090 for 500 m and then turn left onto the D 9 and up to St. Vincent-de-Mercuze. Continue north to the bridge over the Alloix and the immediately adjacent village of Montalieu. In the village, take the first road on the left, which leads up to the next plateau (Les Prés). At the first rightward haipin bend approx. 400 m after the village, park the lower vehicle (information board).\nTake the second vehicle and continue up a left-hand serpentine until you approach the Alloix valley again. Park the second vehicle where the road bends to the right (below an electricity pylon).\nEven without a second vehicle, you can reach the entry point in 50 minutes via footpaths close to the stream.

Acceso: (traducción alternativa)
A path leads along the meadow in a WSW direction to the stream.

Recorrido: (traducción alternativa)
Various types of rappel, clear water, some jumps and slides possible; you can almost always get out on the path near the stream.\nGood to combine with Infernet.\nThere is a prohibition sign near the village, but according to its wording, this is primarily intended to exclude the municipality's liability for any accidents. In addition, it was repealed by the Grenoble Administrative Court in 2001 (see descente-canyon.com).

Regreso: (traducción alternativa)
Exit at the suspension bridge and follow the path (orographic) left down to the lower vehicle.
