Especialidades:

Equipo:
Cuerdas: 1x30m

Resumen: (traducción alternativa)
Forest canyon with some small rappel in a stream that towards summer loses its already low water flow. The canyon is basically used only as an entry to the Viandico (Rio Aso).

Hidrología:

Acceso: (traducción alternativa)
How to get to Viandico: We drive north on the A-138 from Ainsa towards Bielsa. After 10 km (from the center of Ainsa) we cross the Rio Bellós and then pass through the village of Escalona. 350m after the bridge we turn at the traffic circle in northwestern direction ("Fanlo" - "Anisclocanyon") on the HU-631. We drive always along the river (Rio Bellós), we come into the canyon, the road leads partly high along the wall and after 13,2 km we come to a bigger parking area in a hairpin bend to the left. Here we park our (possibly lower) car.
There is also an alternative way to get here on a better, especially wider road. For this purpose, 1.9 km after the mentioned traffic circle in the north of Escalona, we turn left on the road to Buerba and Vio. We first drive past the campsite and then 12 km up to Buerba. Past the village, up over the saddle (with a beautiful view into the Anisclo canyon) and beyond in sepentines downhill. 4.4 km after Buerba we meet HU-631 at an acute angle, on which we turn right (in a southeasterly direction). If we have only 1 car available, it would be recommended that all but the driver get off here (including luggage) and let the driver continue alone to the aforementioned parking lot in the hairpin bend. The driver will arrive at this parking lot after 1.6 km.
From the parking lot we go - with a second car or on foot - (again) the HU-632 uphill - there is also a shortcut of the wide road loop on a footpath in direction WNW uphill -, after 1.6 km we join if necessary with the group of those dropped off here and it goes on for another 800m to the bridge over the side stream - Barranco Flageto/Metils/Malaguero. Here we can park our second car, if we have one available.

Acceso: (traducción alternativa)
From the road just below the bridge into the stream.

Recorrido: (traducción alternativa)
4 small dry rappels in a barely deepened canyon

Regreso: (traducción alternativa)
It would be theoretically conceivable to walk the Rio Aso upstream to the Puente de la Espucialla and there take the path to the left up to the road and to the car. But then the canyon would not be worthwhile at all.
Since it is used as access to Viandico, once you reach the streambed of the Rio Aso, you go downstream (Barranco Viandico - see there).
