**Especialidades:**
Regenbach,

**Equipo:**
Cuerdas: 2x 30m

**Resumen:** (traducción alternativa)
Low water rappel canyon with a few jumps.

**Hidrología:** (traducción alternativa)
Canyon, which is very often accessible, even if other canyons do not open again after rainfall.
Unfortunately, the water level picture is only possible at the top at the entry.

**Acceso:** (traducción alternativa)
From Locarno in the direction of Centovalli to Intragna (8 km), park your car in the parking lot of the cable car (to Costa) (parking fee).
Alternatively, you can also reach the summit by transferring vehicles (see Brunner, B. op. cit.).

**Acceso:** (traducción alternativa)
Parking lot at the train station: Access is possible directly from Intragna via the hiking trail to Pila (45 min.).
Alternative shuttle: From the parking lot, follow the hiking trail uphill from the hairpin bend and enter the stream at the bridge over the stream.

The cable car has not been running since 2023; you could have taken it to the Pila middle station.

**Recorrido:** (traducción alternativa)
Sequence of medium-high rappels; some jumps are also possible. There are always opportunities to get off.

In the lower third, near the houses, there is a section that is usually very slippery and sometimes disgusting, where there is always dirt to be found. However, the three final abseils towards Melezza are good again.

C18

**Regreso:** (traducción alternativa)
Either exit before the last (18m) rappel into the Melezza on the left or rappel down to the Melezza and climb up again directly on the left bank, following the path to the village. Approx. 30 min.

Alternatively, get off further up at a steel door "Privado"
(open lattice door with steel cables), follow a small mini-climb onto the road that leads to the village and back to the station.

**Coordenadas:**
Inicio del Cañón 46.1782 8.6910
Final del Cañón 46.1746 8.6974
Aparcamiento a la entrada 46.1760 8.6920
Aparcamiento Entrada y Salida 46.1780 8.7019

Hike after heavy overnight rain, when other streams still have too much water. All anchors are in good condition; many jumps are possible since the pools haven't been filled with gravel. The name entry field deletes any name entered, so I didn't enter anything there. (traducción alternativa)

Due to the rain the day before, the canyon was in good condition. Slippery in places. But less dirty than usual. Many jumps could be made. (traducción alternativa)
