Resumen: (traducción alternativa)
Rappel canyon with possible jumps

Hidrología: (traducción alternativa)
still water-bearing in spring.

Acceso:

Acceso: (traducción alternativa)
From the parking lot, walk briefly across the stream and parallel to the watercourse across the meadow. After 5 minutes it becomes rockier and you automatically want to get to the canyon.

Recorrido: (traducción alternativa)
The first pools look jumpable. Then a higher rappel soon follows. Tourists are often encountered at the foot of the rappel. Unfortunately, anchors have been stolen here, so you have to follow the path downwards. Then you walk along the stream on path tracks and after a few minutes it becomes rockier again and the second part begins. There are some nice pools here too, until the 80 m final waterfall provides a beautiful finale.

Regreso: (traducción alternativa)
Follow the stream over many rock slabs and a few easy climbs. After about 20 minutes, you will see a path on the left that gains some height until it flattens out and soon joins the road.

Unfortunately completely dry at this time of year. We came from the top by car and parked in the parking lot near the walking passages about halfway up the canyon. We followed the hiking trail to the top, after the last rappel you can keep right, there you come to a path that leads you back up again. (traducción alternativa)
