| Resumen: (traducción alternativa) Rappel canyon, usually dry | | |
| Hidrología: | | |
| Acceso: (traducción alternativa) From Réthymnon we drive south towards Armeni, Spili, Agia Galini. We drive through Armeni. Approximately 10 km further on we turn right in the direction of Agios Vasinou Sellia. It goes in western direction. After about 10 km (from the turnoff) the road bends south and we pass (high above the streambed) the Kotsifou canyon. We ignore a road turning left and come to Sellia. Not descending towards Plakia, but continuing straight westward we come after an estimated 18 km to Kato Rodakino. We pass through the village. At its western exit we see a small unpaved parking area on the left. Park the car here. | | |
| Acceso: (traducción alternativa) From the car we follow the slope that starts northwest of the parking area and goes up continuously towards NNO. We ignore a track that soon branches off to the left, as well as the track that branches off to the right after about 600 m (from the car) and one that branches off to the left about 100 m further on. We pass through two gates. After a total of almost 1 km we come to the place where the track runs northeast away from the stream (Sikia). Here, where another path joins the Sikia, we descend into the streambed. | | |
| Recorrido: (traducción alternativa) A total of 12 rappel. After about a third of the route, which until then is mainly walked or rappelled (only 2 small rappel), the Rodakino B Canyon opens from the right. From here on, the canyon becomes much more respectable. | | |
| Regreso: (traducción alternativa) Pass under the road bridge and then left up to the road (wire fence!). Then right to the car (50 m). | | |
