Especialidades:

Equipo:
Cuerdas: 2x70m (2x50m)

Resumen: (traducción alternativa)
Small catchment area; standings need improvement; nice, vertical canyon without longer walking passages; 70m waterfall can be subdivided; clean water; can be combined well with Rio Malimberg (recommendation: first Rio Pliz, then Rio Malimberg); 3mm neoprene is usually sufficient.

Hidrología:

Acceso: (traducción alternativa)
From Hotel Carnia take the SS13 in the direction of Tarvisio. At the exit of Chiusaforte turn right towards "Sella Nevea"/Raccolana. Follow this road straight on, go through the avalanche gallery and continue straight on. About 4 km after the avalanche gallery you will reach the village of "Saletto". Here you turn left (over the bridge) towards "Chiout Cali". At the entrance of the village you cross "Rio Malimberg". Immediately after the bridge park on the right (next to the power house).

Acceso: (traducción alternativa)
At the power house after the bridge, you can already see the hiking trail marker 641 (note: on the Tabacco map, the hiking trail is already marked before the bridge. But this is wrong!) Immediately after the power house, follow the access road up to the first house. The path goes between the houses until you come to asphalt again. Continue right here in the direction of the electricity pylons, where there is another trail marker 641. From now on, the trail is clear and you follow this (641) for about 30 minutes steeply through the forest, past the old wooden bridge (Rio Malimberg) to Rio Pliz. At the entry at 700Hm you will find a wooden sign with the inscription "Riu Plis"

Recorrido: (traducción alternativa)
The Rio Pliz is a very open rappel canyon with a beautiful layer. There are no major difficulties at the abseiling points due to the mostly low water flow.
At the entry of the Rio Pliz inferiore you start with a small downclimb/slide and are immediately in front of the highest point (70m). The stance is OK but exposed on the left side. If you do not have a 70m ropes, the abseiling point can be divided into 20+50m. The route then continues vertically without much distance to the end. Some nice pools provide a welcome cooling in between before you reach the stone bridge/exit at approx. 570m.

Regreso: (traducción alternativa)
Once you reach the stone bridge at 570m, exit the canyon to the right. From here, follow (right) first the forest road and then the asphalt road to the parking lot at the bridge.

Coordenadas:
Inicio del Cañón 46.4072 13.3792
Aparcamiento Entrada y Salida 46.4056 13.3712
Final del Cañón 46.4055 13.3800

The entire canyon is surprisingly vertival with big steps. The dead goat is on the half way now, the next flood might put it in the hanging pool, that it will not leave for a while.

Great facilities. Fun, high rappels—everything's great (traducción alternativa)

2026-05-03 | Manfred Danglmaier | ☆ ☆ ☆ ☆ ½ | 🕮 ★ ★ ★ | ⚓ ★ ★ ★ | ≋ Bajo | 👍 Completado
Access partly a bit overgrown, stands very good, the last stand could be renewed, super in the sun, in combination with Malimberg a superiore thing (traducción alternativa)

Automatisch importiert von Descente-Canyon.com für Canyon Pliz Approach for a hiking path is in a very bad shape.We did only the lower part.It's a very nice and sunny canyon. (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/22128/observations.html)

2024-07-15 | Bina | ☆ ☆ ☆ ☆ | 🕮 ★ ★ | ⚓ ★ ★ | ≋ Normal | 👍 Completado
Considering that the access is supposed to be a hiking trail, it is in very poor condition. According to the pictures, the Pliz has as much water as it did at the exit in April. We really enjoyed the canyon. (traducción alternativa)

Currently normal water level. All stands in good condition. If no stand available, can be rappelled from the tree. We have changed a muddy loop (last rappel before the bridge). Approach is growing again a little bit. (traducción alternativa)
